

Dream by Clay Nash

March 2024

In the morning hours of March 6th, 2024, I had a dream in which the Justice Gate Angel said "I am calling the Ozark Mountains to 7 Days of 24 hours a day live worship gatherings." Then on March 20th, the Justice Gate Angel instructed for these live worship gatherings to focus/correlate each 24 -hour period on one of the seven gates (or mountains) of authority & influence in the earth.

Then just three days later, on March 23rd, I dreamed that the Justice Gate Angel said "Tell the people of the Ozarks to bring rocks from the Ozarks in order for the rocks to experience the 168 hours of worship and prophetic words. The Justice Gate Angel further instructed me to inform the people to pray about where to take these rocks that will have "recorded the sound and words of worship."

I then dreamed later in the morning hours of March 23rd, that the complete Ozark Mountains were cut over a region of barren stumps that were dry, dead, and barren looking. I then saw the people of the Ozarks placing the rocks across the Ozark Mountains as directed by God. (The Ozark Mountains span through Missouri, Arkansas and Oklahoma.) After a period of time, the rocks that had recorded the 168 hours of worship began to release moisture that became life and brought forth green sprouts. These sprouts began to grow and matured into a fresh and new forest. The forest gave forth shade and this seemed to summon eagles by the thousands and they assembled in this new forest.

Then the Justice Gate Angel said "Liberty is now ready to be released to the Heart of the Nation, and My cleansing Blood can now flow freely, and bring Resurrection Life and Liberty to the parts of My Body that are dying."
