July 2026

I saw in my spirit a gigantic storm headed for DC. It was a combination blizzard/tornado. It was headed straight for the Capital. Specifically both houses of Congress.

I heard the Spirit say surprise surprise surprise! This storm will be sudden and shocking! It will hit between now and Summer. It will have a major effect on the midterms.

He did not tell me in what way.

My Ekklesia is to rise up and pray and intercede that full exposure comes to all on both sides of the isle as a result of this storm. Pray that nothing remains hidden so that I might place righteous leaders in the Capital to Lead this nation!
