

Triumphant Prayer Call for Righteousness
Tuesday Night Call
Date:2021-10-05
Topic: Praying in Tongues

Clay Nash [00:00:35] Well, good evening. It is now 9:00 p.m. Eastern Time, and we're on our Tuesday night call, and we so appreciate all of you that are joining in daily, Five days a week and of course, on our Tuesday night. Tonight, we're going to be talking about the application of praying in tongues and the power of it. In the book of First Corinthians, Chapter 14, verse 13, God's word tells us, "Therefore let him who speaks in a tongue pray that he may interpret." You know, there's a lot of aspects of the heavenly language that God gives us, that we need to exercise so that we can fulfill the power release that God desires for us to have. I know years ago my experiences, when I was filled with the spirit, baptized in the Holy Spirit, whatever your language might be. I had not been around Pentecostal spirit filled people. I just got, Susan and I, got alone with God, told God there was more and praise God, a heavenly language was released through us. and beyond salvation, I have to tell you, it is one of the greatest gifts of God. I sometime, really not in humor, but I tell people when in doubt pray in the Spirit, pray in tongues and God will, and can certainly direct you. But therefore, who speaks in tongues pray that he may interpret. you know That's, as I travel around to many places that's almost a lost art, a lost part of the gifting that we have there, and we utilize this powerful release of God's grace so that we can build our self up, according to the Book of Jude, on our most holy faith. Well, we're blessed tonight to have some great hosts on. and I'm going to call on Jacquie Tyre first. I know Jacquie, you've had a--you've got a testimony about this and just share from your heart some insight. As we move on in the call, we're going to do some praying in the spirit. And we're hoping those of you out there on the call will join in right where you're out and pray in tongues as Well. If this is something that has not been part of your walk with God, don't feel in any way left out, nor feel condemned, nor feel second class. We're all on a journey and God works with us as individuals in that time. But if you would like to receive the filling of Holy Spirit, the baptism of Holy Spirit, if you will write me an email, I'd love to talk with you. And even set up a time we can pray by phone because I know that God desires to fill you in in spirit and to give you this prayer language because you can build yourself up to a strong place. Jacquie, thank you for being willing to go first. Thank you for being on the call. What's in your heart tonight?

Jacquie Tyre [00:04:02] Well, what you just shared, clay is a good place for me to start. I'm going to share two things. the first one, I'm hoping people will find some humor in this and maybe some encouragement for those that are coming out of traditions that have not taught or activated the baptism of the Holy Spirit or as it was in my case, even taught against it. I was raised in a tradition that basically said if people spoke in tongues, they were speaking of the devil and being motivated by the devil. And so, I had quite a journey to come out of that mindset and that indoctrination, if you will. In my humorous story is I had been on a journey with the Lord, what I call my Roto-Rooter years when the Holy Spirit was just cleaning out a lot of things. He had said to me, if you want to change your life, give me your time and I will begin to transform you. And about a year or so, about a year and a half into this, I got invited to be on a TV program that was on TBN, and I went

to breakfast one morning while my kids were in preschool with the wife of the host of this program. And I looked at her and I said, I don't know what in the world I am doing, going on a TV program on a charismatic TV station when I don't even know what I believe about the gifts of the spirit. Now that's pretty funny for me today. So that was honest. That was transparent. It was where I was and I got home that afternoon, put my kids down for their afternoon nap and took my usual afternoon spot with the Lord, with my Bible on one knee and my journal on the other sitting in my living room and writing in my journal and praying and all of a sudden out of nowhere seemingly I began to pray in the spirit. And here's what I wrote in the edge of my journal: Oh no, I think I just prayed in tongues. Now what? And it was a humorous moment. It began a journey that I would never, ever regret. Had a lot of questions, had a lot of growing I had to do, a lot of research, a lot of study, but I knew that I knew none other than God had done that thing for me, and it was a precious moment. In fact, at that point, I was 31 years of age and had never even heard anyone speak in tongues. So, you can imagine my surprise, but a delightful journey it has been for all of these years, and I won't tell you how many years that is now. The second story that Clay, you and I talked about a little bit earlier today was a number of years later I was in a church and a young man who was a few years younger than me had been diagnosed with a recurrence of non-Hodgkin's lymphoma, had had a bone marrow transplant. And as we as a congregation were praying for his healing, he had two little children. One was a baby. One was like two and a half or three years old. And I had a vision, while praying in tongues, of an octopus that was the root of his cancer. And I didn't know a whole lot of what to do with that, other than to pray in the spirit. And so, for a number of months, that's all I did. And the day came when the Lord said to me, I want you to tell the pastor and just tell him that the next time he goes in to pray instead of asking for healing, command the spirit of cancer and the spirit of death to let him go and then to pray healing. So, the pastor looked at me. He said, What are you doing at three o'clock today? So, I said, Well, I'll make arrangements. He said, I want you to go to the hospital with me. So, I did. But in the meantime, from about 9:30 that morning till three o'clock that afternoon, I got together with a group of intercessors and we prayed in the spirit over that octopus. We prayed in the spirit, and during the course of praying in tongues, God would give spiritual understanding that would reveal the identity and the spirit that was operating through each of the tentacles. And then the body and so, one by one through tongues and then God bringing understanding. We would deal with that in intercession and dismember that octopus and took the sword of the spirit to the head. That afternoon, went to the hospital. The pastor, which was quite unusual in this particular denomination and the congregation. He handed me the anointing oil and he said, God's given this one to you. I simply commanded that octopus. And basically, what I said is the lord has revealed you and all of your characteristics and your nature, and you have been defeated through the blood of Jesus and the finished work of the cross. And I command you to let him go now and be gone. And then I took the anointing oil and anointed this young man and released the healing grace of the Lord into every place that that octopus had brought death and destruction into his body. He was healed and walked out of the hospital the next day. That was an incredible time of the miracle working power, but it came through the activation of the baptism of the Holy Spirit because there were different parts of tongues and expression of tongues that happened in that encounter. Some of it was simply just praying in the spirit, in my heavenly language, as God gave utterance. Other parts of it came forth with a tongue

and interpretation that then we followed in obedience to that brought forth a great victory in this man. And he lived to raise his children, and that was a gift. But I think the reason I wanted to share those two encounters is from not having a clue to God in his mercy, pouring out his holy spirit, saying I'm quenching a thirsty, hungry heart to entrusting with revelation. Bit by bit by bit. Until he brought his preferred victory out upon this young man and his family. So, praying in tongues, manifesting the gift of tongues, not just the praying in the spirit, but the gift of tongues are all a vital part of where we need to be moving as the Ekklesia in this hour to get breakthrough into the days that God has ahead of us. So, I hope that is helpful for you, for everyone. And thank you, Clay, for the privilege.

Clay Nash [00:11:16] Thank you, Jacquie. That was excellent laying out. I want to turn, you know, somewhere toward the middle of our call tonight into praying. We've got numerous things in the scripture tells when we know not how to pray that spirit will pray through us. And I think there's a lot of things on the table; people losing jobs. Just a lot going on that we need to deal with. Dwain Miller, you're with us, what's in your heart?

Dwain Miller [00:11:50] Yes, Clay, it's an honor to be here and thank you, Jacquie, for those wonderful stories. She and I come out of the same background and have been on a very similar journey. I was 29 whenever I went to Brownsville and was touched by the Holy Spirit. And I actually just preached on this Sunday, and I titled the message Battling for Breakthrough. A young man came to me years ago that had been born again, delivered from selling and addicted to methamphetamine. He was on fire for God, doing great things. Baptized in the Holy Ghost and he came into a day in his life whenever he totaled his automobile, his girlfriend said she wasn't going to live for God and left him. He lost his job. He came to me and he said, What am I doing wrong? Well, you're not doing anything wrong. I said, but your prayer life might not be. Where it needs to be to walk through these types of things, these things happen because we have an enemy. And so, I directed him to a verse you talked about already; Jude 3, where he talks about...well actually you quoted Jude 20 verse 20, but in verse 3, he says: I felt it necessary to write you, urging you to contend earnestly for the faith. That's what we are having to do right now with Miss Amy, and thank you all for all your prayers. We had a setback today. We're not claiming it, but they put in a tracheotomy and her body did not respond well to the process of --the tracheotomy is fine, but they have to raise their oxygen levels and kind of go back to some things that we thought we were past. So, we covet your prayers. But this word contend is a 17 letter word in the Greek that I won't try to pronounce, but it literally means: To wrestle, to strive for more. But it's more than that. It means not only to make the Olympic team and to be the best on your team, it means not only to win the Gold Medal in your event, but it means to set the world record. Paul says You have to war in this warfare at a level that is beyond anything anyone has ever seen. You have to pin your enemy down and take him out. You have to, you know, you have to win this thing with a supernatural power. Then of course, you know, that dude goes on to talk about the dispute between Michael and Lucifer and then he comes down to verse 20 and talks about building yourself up in your most holy faith. How do you contend in this super natural way, in this the super conquering type way? You do that by praying in the Holy Ghost. And then, if I could, I just want to read Romans Chapter 8, and I want to put it in context because I'm here to tell you, in my opinion as a man who studied scriptures 35 years, the most misquoted passage of

scripture by all denominations and all people in all groups in history. And so, Paul, in Romans Chapter 8 verse 24, says, "we're saved in this hope." Of course, you know that Elpus (?) hope is a guaranteed certainty promised by God, it's not a hope so maybe so, this is an absolute certainty promised by God, he said, but this hope that is seen is not hope, but we hope for what we do not see. And we are hoping for something in the spiritual, not something in the natural, so, he says in verse 26: likewise, the spirit who knows what that hope is helps in our weaknesses, for we do not know what we should pray for as we ought. But the spirit himself makes intercession. That term intercession here is overcompensates. The Holy Spirit, when we're weak, and we don't know how to pray and what to pray for, the Holy Spirit through this language is overcompensating for us. And with, and literally, he's overcompensating from the Greek language and conferring upon us with groanings or sighs, which are not a known language. Literally from the Greek, that's the translation. Listen to that again--the spirit himself is overcompensating and conferring upon us this language that is not a known language to a human being. This is a heavenly language. and he searches. Makes--the word search; It means he makes an inquiry of the heart. Because he knows what the mind of the spirit is, because the spirit is overcompensating and conferring upon us as the saints of God, according to, here we have the same word as James; the engrafted or the inserted or the inborn will of God, which is the inborn word of God. So, if I could just put that in a summary for you. We have a hope, a promise from God. in our case, we have a hope, we have God's word that she's healed. It's not, it's not a question. It's God's will to heal everyone. And so, we know that the word of God is already declared this hope, which is a guaranteed certainty based upon the promise of God. But when we get weak, let me tell you in a battle like I'm going through right now, there are many days and many moments when I'm weak. My flesh begins to dread and my mind begins to wonder, and the enemy plants thoughts in your mind. So, what do you do? Well, in that weakness, you just begin to pray in tongues, because when you're doing that, the Holy Ghost is overcompensating for that fleshly weakness. He's conferring upon us this faith that comes from the mind of God with a language not known by a man making an inquiry of the heart; the will of God and again, overcompensating to us and conferring upon us the will of God that's come from the inborn engrafted inserted word that is inside us. And we know-- this is the this is the misquoted verse-- and we know that all things work together for good. That's not talking about your day and the good, the bad and the great and the terrible. That's talking about in the context of the prayer language. And we know that all things that we are praying in our prayer language work together for good to those who love God are those who are called according to his purpose. That word purpose is prosthesis, it's where we get our English word prosthetic. It is in the Old Testament, the show bread or the face bread of God. Meaning this and I'll and I'll wrap this up. We know praying in tongues when we are at our weakest moment, the Holy Ghost, who knows what the hope is that God has promised is overcompensating and conferring upon s with a language not known by a man, according to the inserted word of God that is placed inside of us and when we do this, we know that all those things are working together for the good so that we will be the prosthetic of God's face to this creation and to this world. And that's how we bring the will of heaven to Earth. So those are my two cents worth. Thank you for your prayers for my beautiful bride. She's coming through this, coming out of this. The devil's a liar, and I want to encourage you. Listen to what the word of God just said. Listen to what --when you are at your weakest the

Holy Ghost knows the hope of God, the promise that's inside you. And he's going to overcompensate for your weakness in a language not known by man. He's going to pray according to the engrafted word that's inside you and bring it to a reality. And when you're doing that, all things are going to work together for your good to make you come out looking just like Jesus to this world. God bless you, Clay and thank you for the opportunity.

Clay Nash [00:20:00] Thank you, Dwain. Excellent. Strong insight there, in fact, Brother Jim, I want you to go next, but before we do, I want us to just-- and the host unmute your mics. I want to pray in the spirit for just a moment for Amy, I'm going to set my heart. I mentioned in the vision meeting up here about the fact that Godly imagery is something we need and we need to pray in the spirit right now over Amy and all those that are fighting with covid on this level out there. So those of you that are participating by listening in, if you have a heavenly language, please press in right there at home with us.

Hosts [00:20:49] [Praying in the spirit]

Clay Nash [00:22:10] Father, we just thank you for Amy's total healing. We thank you for her total well-being. We thank you Father that her body is not going to fight this change, but it's going to line up with the word of God. It's going to line up with the medical science and we just declare lungs are being healed as we prayed in the spirit. Her Breathing is becoming not only deeper but natural. We declare her blood oxygen level is going up. We declare that she's moving into the zone of her health springing forth speedily; a promise in Isaiah 58. So, Father, we just thank you as we prayed in the spirit that we release the power of God and we thank you Father for Amy's total healing and total well-being in Yeshua's name, Amen.

Dwain Miller [00:23:09] Thank you. Thank you so much.

Clay Nash [00:23:12] Thank ya'll. Thank ya'll. Brother, Jim Hodges. Always good to have you on. What-- I know you have something to contribute. What's in your heart, sir?

Jim Hodges [00:23:23] Thank you, Clay. Let me just say I am so encouraged by us addressing this topic and this spiritual experience that we have to pray in the spirit of what Dr. Jack Hayford (sp?) used to call "the beauty of spiritual language", which I love that. It's Such a core issue for us and yet it's still an issue for some in the body of Christ. That's a problem in their doctrine or maybe their experience. And so, I am stirred that we are going there. I want to make a few observations and the first one is this; I asked the question two Sundays ago in an Oklahoma church because I was praying about what to share and I shared the Holy Spirit baptism and the gifts of the spirit. And the reason I did is because those are such core issues for us and core factors in our faith, and our walk. And so, I said to the people: we've all heard the question many times: "don't have to speak in tongues?" And the answer is "no, you get to." You get to be like the followers of Jesus in the Book of Acts who spoke in tongues. So, I said to them, maybe a better question might be, do you want to pray more effectively? And to me, that's why wouldn't every Christian to say yes to that, right? Or do you want to obey the command to be filled with the spirit? So just to kind of get it down on the very elementary level just to look at it that way? Now what

I see here and this is powerful and I won't in any way match Dwayne's wonderful expression or that expression of Holy Spirit overcompensates. I have never heard that, and I think I'm probably a lot older than Dwain. So, thanks Dwain for sharing that. But I just remind the people that in scripture the New Testament scripture talks about triple tongues. Tongues as prayer, tongues as a message along with interpretation, which essentially equates to prophecy. And then, of course, tongues as a sign. And but the focus and emphasis obviously is upon tongues as prayer, speaking unto God and speaking mysteries in the spirit. And you are well taught. I don't need to label that with you, but I wanted to bring that up. It's just a basic issue because if we can focus on the poor emphasis, which is very strategic and important to a believer's life, then we might find a better response toward those who grow up with a background like I did; denominational. We just thought all that stuff passed off once the Bible got canonized. That's what we were told, so we believed it until somebody who told us different. But I just want to say this real quickly and add this and not say too much before I pray a moment. The expression there in Romans eight about all the groaning; creation groans, Holy Spirit groans, the body of Christ groans, individual believers groan. And these are groanings too deep for words, my translation says. But that simply means prayer out of our spirit, obviously, and not originating in our mind. So the Holy Spirit groaning is being expressed through you and me at times in our prayers. And how often have we thought like Romans 8 said, "We don't always know how to pray as we ought." So as Clay said, we can in a sense, default and just go pray in the spirit. As we do that we're not going to miss the mind of the spirit, or the will of God. And when get released what must be released does the spirit comes alongside and takes hold of us and works with us in that whole process. We provide the utterance as it were. He provides the language that we communicate in. And I'll say one final thing quickly, I'm really trying to encourage some of my friends. I still have friends that don't speak in tongues. That may shock you. I'm trying for them to say in John 3, which everybody believes, Jesus said: Unless you're born again, you cannot see the Kingdom of God in verse three. But in verse 5 it says, "if you're not born of water and spirit, you cannot enter the Kingdom of God." So the verb changes and the answer there is a commentary from one Corinthians 10, one and two, Paul says, "Don't be ignorant about the exodus. Our Father's who came through the sea under the cloud, baptized into Moses, in the clouds and the sea. Clouds, Obviously Holy Spirit, in the metaphoric in scripture and covenant. and water certainly refers to the Red Sea. So, it's like spirit baptism is that which just normally would follow the new birth because in the new birth we're regenerated but in the baptism or filling, we are empowered. So Lord, we thank you tonight for the gifts you give us. Father, we thank you for your gifts to us. Lord Jesus, thank you for your gifts to us and Holy Spirit we thank you for those nine supernatural gifts, not natural abilities, but supernatural enablement and endowments to not only touch you but to take hold with you and you take hold with us? So agreement is perfect as it were and mature to bring forth your will in the Earth through our lives, through the Ekklesia's life in the name of Jesus. And we thank you that breakthrough is in the air. Breakthrough is here not just for Amy, but for all concerns that we have as we go forward to represent you and to extend your kingdom. We say let fresh baptism come into our lives, flesh filling, new anointing's, new as it were enablement's and new power in the ones we've even moved in before. We thank you for it in Yeshua's name, Amen.

Clay Nash [00:29:46] Thank you, brother Jim Hodges, always appreciate your approach. So significant. I want to throw this out for some thought, if any of the rest of the hosts that's coming on or one of the hosts want to come back in. But about interpreting our tongues at times. I Remember in 1984 was my first time, I spent a couple of hours praying in the spirit. Praying tongues and an interpretation came forth and it so startled me and I was so new that I drove five miles to my pastor. And I remember asking, Can you do that? And so let's see if we can weave that in the night. I'm happy to come back in at some point with it as well. Regina, what have you got?

Regina Shank [00:30:34] Yes, sir. So good to be on with you all tonight. I tell you, I have several things actually in First Corinthians 14. It talks here, I think in verse 2: for anyone who speaks in a tongue does not speak to men, but to God. Indeed, no one understands him. He utters mysteries with his spirit. And I wanted to talk about that. And then also in first Corinthians 12, it talks about in verse 10 that there are different kinds of tongues. And I have experienced several kinds of tongues just because of the type of prayer that we were addressing. It's also intercession, I know that, but I also know that it's warfare. I remember this time my sister and I were praying for a situation, and it was definitely a strong hold. And we ended up praying in a tongue I'd never prayed in before. And I believe there are several different kinds of tongues that the Lord allows us to pray in. And it was a warfare tongue. I mean, it was almost like we were doing karate chops in the spirit as we were praying and delivering this tongue to bring breakthrough. And we did get breakthrough in the midst of that. And I also remember years ago when I first got filled with the spirit actually back in 1980 and we were trying to get a family out of a cult. And when I got through the Holy Spirit, I was desperate for that to happen and I begin to do what's called travail. And I would get out on my deck at my house, and I would just begin to groan and pray out of my spirit. I didn't know what I was saying. I didn't know what God was doing. But after I got first filled with the spirit, I said, God, is this what you do when you get filled with the spirit? Am I'm going to do this the rest of my life? because it was very difficult and, you know, hard to get done. But this was a specific kind of prayer to bring deliverance to a family. And after that deliverance came, the travail lifted and I began to have a different kind of tongue, which was a worship tongue. And we know sometimes when we're praying and we're singing, we're singing, we can sing in the spirit, in tongues. And I also know that as we've been praying for people which we do in our ministry, we had a woman who had so much pain in her emotions. And one of the things the Lord directed me to do is to tell her to begin to pray in the spirit, but get in touch with the pain in her emotions. And she did that. She said, God, I give you my emotions where there's so much pain from what I've been through and I'm going to begin to pray the spirit. And she did. And it was like she was crying, but doing it in the spirit, and she got a release from her emotions that she had never had before. And I think that is something that God is teaching us, that the spirit makes intercession for us in whatever we need. Whether it's emotional, whether it's bondages, whether it's worship, the Holy Spirit is there to pray through us. And then a couple of other things. We were in a nation in Bosnia and we were praying for this missionary lady, and she was sitting across from me at her table because we were there with them and she said, I've been trying for 20 years to get my prayer language. And I said, really? And she said, Yes. I said well, you're going to receive it today. And she looked at me and blinked. and I said, yes. So we prayed for her, put hands on her, prayed

for her to receive her prayer language. And this was the key for her. You know, it says we speak and then the spirit gives utterance. And that's a key, I think, for people because we open our mouths and begin to speak and he gives the words. It's like walking on the water. You know when Peter, he had to step out of the boat before the Lord held him up. And I think that's a key to receiving your prayer language is Lord I trust you, I believe you. I'm going to open my mouth and let you fill it. And she received her baptism of the Holy Spirit, and she was just overjoyed with receiving that. She'd been seeking, like I said for 20 years. I believe, praying in tongues brings breakthrough out of bondage, out of abusive situations and a financial breakthrough. I just believe Holy Spirit uses that because I don't know how to pray as I ought, and that's what the Bible says. And so Holy Spirit prays through us. And then one more experience I want to share with you. I was in my car and I was by myself, and I was coming home from a trip to Kansas City, and I just started praying in the spirit. And it was just pretty powerful, and I knew I was by myself, but I heard this voice praying with me. I was afraid to stop praying in tongues, but I was afraid to keep praying in tongues because it was not my voice alone. But there was another voice that joined me in paying. And I'm telling you, Holy Spirit is amazing. And so I just continue to pray, don't know what's going on. And I don't even know how that happened, who was praying with me. It must have been Holy Spirit praying through me and with me or what was going on. But I'm telling you breakthrough came after that. And I love praying in the spirit. I think, you know, we give birth to things, we break through, We help get people out of bondage when we teach them how to pray in the spirit and bring that breakthrough to their lives. And the Bible says that we speak mysteries in the spirit, and I love to bypass my mind because sometimes I don't know how to pray about something and I say, Holy Spirit, please pray through me about this situation. And I've awakened from deep sleep, praying in tongues and having somebody's face come before me and realize I'm praying for that person. And so I love that gift. I think it's a powerful gift from heaven, and I just hope that everyone on this call would desire that gift because it brings great breakthrough in people's lives. And I just say, you know, we need that gift in the body of Christ. And I'm really sad for those who have said that that passed away with the disciples because I know I desperately needed it in my life 40 years ago when I received that gift. And I use it every day in prayer, and I think it's a wonderful gift. So I just decree over everybody listening on this call that they will desire, earnestly desire spiritual gifts. And that would be one of the gifts that they would desire not only prophecy but also speaking in tongues and the ability to even interpret that, in Jesus' name.

Clay Nash [00:37:57] Amen. Thank you, Regina, for that. Strong there. David Hertle, there in Brandon, Mississippi. My friend, what's in your heart?

David Hertle [00:38:07] Well, Regina hit the first on the head that I want to kind of major on that has been a blessing to my life. I know that I am old enough and many of you are, Most of you are, that you remember that the gift of tongues has been the most divisive, despised and misunderstood gift by a major part of the church. And it's changed some and more of the church is receptive to it than ever before. But the thing that I've learned is it's the gateway gift to the other gifts that most of the church respects. And it's there listed there in 1st Corinthians 12:4-11, but we're not limited to those, but at least those are available. So It's never wise to despise anything as being of small consequence or of little

value when Jesus made provision for it through his sacrifice. So I'm like, I'm not getting how that gift gets in that category of being despised, but it has been. So probably it has to do with the intellect. Can't explain it. And so it does challenge our dignity sometimes so if you're in that kind of crowd. But it's interesting also that the new covenant gift, all the new covenant gifts, I believed and I could be wrong on this, you can correct me, but I think they were all manifested in the old covenant except for praying in tongues. but in Matthew, 13: 11, Jesus said to his disciples, its been given to you to know the mysteries of the Kingdom of Heaven, but to them, it's not been given. And then in the verse that Regina quoted, First Corinthians 14:2 says, for he who speaks in tongue, doesn't speak to men but to God for no one understands him. However, in the spirit, he speaks mysteries. And so when we pray in tongues, we're praying mysteries, mysteries to our minds. Often times, most of the time. And the realm that the tongues are understood or, you know, it's the tongues of angels. I assume angels understand what you're saying. Of course, the Trinity understands what you're saying. I believe the devil's left out. Hallelujah. So that's one way we could get our prayers through without them being intercepted and maybe used in a certain way of knowing what we're going to do. But the expression, there's an expression in the old covenant that's used three times and I won't quote where it's a, but the expression is "he makes my feet like hindsfeet. That's the Old King James interpretation and the new one is like deerfeet. but hindsfeet--The unique thing about hindsfeet is that the back feet as they climb, they could climb almost vertical cliffs because the back feet will plant exactly in the spot where the front feet would plant. And so they they were great climbers. And so in First Corinthians, 14:13- 15, it says, therefore let him who speaks in a tongue pray that he may interpret. for if I pray in a tongue my spirit prays but my understanding's unfruitful. what is the conclusion then? I will pray with the spirit and I will also pray with understanding I will sing in the spirit, Then I also sing with understanding. and the thing that is interesting about that is the late Oral Roberts said he built his whole university by praying in the spirit and then asking God for the interpretation. He said I had no idea how to build a university. But he said I'd walk the property praying in tongues. God would give me insight for how to build, where to put the buildings, and how to direct the contractors, what to do. Because first he planted, he would pray in the spirit and then his climbing, his understanding would follow the spirit, and he would get revelation, practical revelation on fulfilling God's will for him to build that university. So I believe in the days we're in. You know, we need to take every opportunity to ask the Lord for and expect revelation and an interpretation to come after we've prayed in the spirit and I don't remember where it's located, I think it's first Corinthians 12:14, but Paul said, I pray in tongues more than you all. And he wrote a big portion of the New Testament. So I believe that that's a key to us knowing what to do next. And sometimes we're kind of hung up there but appreciate what everybody else has shared on this. Dr. Miller and some things I haven't heard, Jim and others really appreciated. So God bless.

Clay Nash [00:43:14] Thank you, David. Yeah, I agree with you. You know, back to the tongues and interpretation. years ago, when I was bi-vocational in ministry back in the 80s, I had to work on a fuel system which was working on credit cards and like that in the Boot Hill of Missouri. And it was the lightning there. The systems were going down all the time. And one day I really felt I was standing at one of them. It was down. The farmers couldn't draw fuel. It was a mess. And I just felt to pray in the spirit, pray in tongues and I did . And

when I finished up-- systems down, We couldn't get it up, I said the quad line driver. It wasn't a word that I was familiar with. It wasn't part of my vocabulary at all. And so I called the company and told them, I said, the system's down again. You got to get a guy that flying from Georgia. You've got to get someone here. Can't get it going. And so we were talking. The guy was accommodating. And I finally asked him, I said, "Hey, could this problem have anything to do with a quad line driver. And the guy said to me, Yeah, more than likely. How do you know about that? And I said, you know, I was trying to be wise. I said, I don't. and he said, well, do you have a Radio Shack around here? You can go and get one. I can show you where to replace it and we won't have to send in the man. And that fixed the whole system and put it back online. I share that to intrigue you. I feel, my opinion, but I feel the body of Christ does not pray for interpretation enough. And I know that I spend a lot of time praying in the spirit, praying in tongues. But I also spend time asking God, "Lord, if there's something I need to know. give me the interpretation of it. It's very important." Pat, you have something. What's in your heart?

Pat McManus [00:45:18] Thank you clay for the opportunity with you guys. what has been shared is pretty powerful already, and there's no question. And a couple of thoughts that I have is this: the praying in tongues links our language with heaven. And it gives us an authoritative language to decree into what needs to be done. So it changes our vocabulary into a heavenly authority to begin to decree the purposes of God and declare the Kingdom of God begin to rule. And also, as David mentioned just a minute ago, praying in the spirit when we are dealing with some situations began to pray in tongues. And God gave me the revelation about how to apply a principle or to do some things when we prayed in the spirit. The reason why I have the building that we have today is praying in the spirit. God gave me strategy to be able to put some things in place to be able to occupy or to be able to actually purchase the building for what we have today. And being able to understand the revelation of what God was giving. But there's one key thought that I had, and I was told this by a friend of mine. The guy, there was a friend of his that was praying in the spirit, and he was over in a different country and praying in the spirit just going through and just praying, trying to hear God for himself and other things. And a guy walked up to him and said, you're speaking my language. And the guy didn't even know that he was actually speaking the language of the guy that was there. And he began to just by doing that, began to describe to the guy by what he was praying to give the guy or other person some information of understanding. So I really believe as we learn to understand, to step into and apply the principles of what is God is saying, we'll see change. The encounter that I had, I was like Dwain and Jacquie. I was going to a denominational church. All of a sudden I was praying at night. I was literally kneeling beside my bed. I was single at the time. I was kneeling by my bed and just praying, and all of a sudden this funny language started coming out of my mouth. Had no clue. So I went to the guy that was a part of the organization the next day, and I said, What is this? And he said, well you started praying in the spirit. I said, to you? And he says, Oh, no, I don't want that. but it was a point to where it changed from that point on. It literally changed everything in my life. So to be able to understand the principles because it changed the language of understanding to apply a kingdom principle. But it also linked me more to being able to press into having a dialog with greater understanding, as the scriptures have already been shared to bring us into alignment with the authority of heaven, beginning to speak and being released to our lives

so we can see the outcome of the Kingdom of Heaven begin to be released and revealed. So to me, it's helping to connect, but it takes us even further to be able to help communicate or to be able to touch someone's life that we never been able to touch before. And as you mentioned, Clay about being able to interpret it helps the body of Christ. No, because if there's a bunch of people praying in the spirit, not everybody knows what's going on. But when you can interpret it to be able to bring clarity, to bring insight, to be able to bring understanding for revelation, for strategy or for direction, I think is very critical as we pray in the spirit to give revelation. So we understand how to apply what God is saying and how to move forward with the revelation that he's revealing or the strategies that he's giving to apply the principle of what God wants to release to our life. So I think it's important that we-- the key is--part of me is spending the time, being willing to set aside the time to do it, the willingness to set aside without any reservation. And when I worked for the electric company here, I did it this way. I used to walk in the hallways at electric company. When I was in the training department and there were different cultures that were there, there was Hispanic there, there was Koreans there, there was Japanese there and they would walk through the hallways and I had no clue what they were saying. So, I would walk through the hallways. I'd pray in the spirit as I'm going from one part to the next or going around doing something. I'd just pray in the spirit. I was walking through the hallways when I worked for the company. Some people look at you and think, Well, what is he talking about? I didn't know what they were saying. They didn't know what I was saying, but I didn't have no problem. So, it's, you know, you just learn to be free. It brings a greater place of peace. It brings a greater place of the presence, but it brings a greater place of revelation as you're willing to spend the time and pray in the spirit. So, Clay thank you. that's all I have to share. Thank you for the opportunity. I appreciate it. Thank you.

Clay Nash [00:49:50] All right, thank you, Pat, for that contribution. Betty, what are you have?

Betty Love [00:49:57] I have a testimony, Clay, and just so thankful to hear what's been released here tonight, but I want to reach back into the late 1980s and my husband, Kimble and I came into the fullness then and received our prayer language. And at that time, as the ministry gifts began to stir within me as we were in meetings in different places in the body of Christ people would give me words; reputable ministries that if I would believe I would see the resurrection of the dead and especially in 1989 and as a 28 year old, I have to tell you that took me back a little bit, but I believe the Lord. in the state of Mississippi as well in the nation, we had a couple that were very apostolic and instrumental and full gospel business men, which would be a Christian businessmen organization that really was instrumental in introducing people, especially in the denomination to the fullness of the spirit and also the baptisms of our prayer languages and the couple happened to live in our hometown in Laurel. And as I said, they were just so instrumental and so key in parenting many of us at that time. And so in the early 90s 1990, we founded a women's ministry in our congregation, and it was regional. People came from all over from the different denominations. It was male worship, now word, now works, and we invited Miss Ann Keller, this mother in the faith. She was in her 70s then to come and speak one night, and it was a powerful time. She spoke on... She actually took her Bible, held it up. I'll never forget. And she said, "this is the truth, the highest truth." And

she said, "in your life, you will have facts and circumstances. But if you will put the word, the truth on those facts and circumstances, they ultimately will line up with God's word because his words will not return void." She finished her time, the word was powerful, and I went and sat down. At the end of the meeting, there were a couple of hundred people present and the women left, and we were down to about 15 of our leadership team. we had a full women's praise band. And our worship leader who had been in this couple's ministry in the 70's was sitting there speaking with Mrs. Keller. Well, I walked over to the pew to get her offering. And as I was standing there, a lady, dear lady in our congregation, mighty prayer warrior, intercessor, 78 year old retired intensive care nurse came and she said, May I pray for you? And I said yes. And she laid her hands on me on my head. And one of the strongest message in tongues came out of her, it literally like shook my being. And when she finished, I heard the voice of the Lord and it sounded as if it were on a loudspeaker. And the Lord said, "The fullness of my power is on you. Now." At that point, our worship leaders voice rose up and I heard her say, "I don't care, get Betty now." And so I had known her, walked with her for several years. I recognized that there was obviously a problem. And when I turned and I looked at Miss Ann Keller, our speaker, she had collapsed against the worship leaders on the platforms. They were sitting on like probably six or seven steps that went up to our platform. She had leaned back against her, her entire face had gone black and her lips were even darker than that. It was like life had gone out of her. It was like she--it was not like anything. She was gone. I immediately rushed towards her and in the midst of it, those 15 or so women that remained took in in a moment what was going on. They rallied and they began to pray in tongues nonstop. Jane had already motioned to someone to call 9-1-1 before she got me. And so when I ran to her again, when Meredith's tongue stopped the word the Lord was "the fullness of my power is on you now." I just ran to Miss Ann Keller. And when I got there, I opened my mouth and again, I believe it was the synergy of the praying in tongues. The initial message that was released over me and what God said, I don't believe it was a--I mean, it was all Jesus. It wasn't a Betty Love thing. It was what the Lord used through the power of the prayer language and the agreement of those that were standing in that circle. When I opened my mouth, the word of God came out of me with such an unction it was like a machine gun, and it was binding the spirit of death and taking authority. And when that came out of my mouth, it cut off as if you were giving a prophetic message or a message in tongues but it was all in English and it just cut off like you would cut off a faucet and looked at her, the intensive care nurse and another medical person were there. And the intensive care nurse said "There is no radio pulse. There's nothing here. She's gone." And I put my fingers under her shoulder to reposition her, and I was fixin' to say, Let's do CPR again. Again, all these people are praying in the holy ghost, praying in their prayer language. And when I started to say "let" the Lord said just where I could hear it again, like a loudspeaker, he said "No! Command her heart to be in the name of Jesus Christ of Nazareth". And I immediately said what he said And when Nazareth came out of my mouth, she immediately gasp. She went ughh! and her breath came back. At this point, that whole group continued to pray in tongues. Her husband was a physician, an ophthalmologist. He arrived. Paramedics arrived. It just so happened one of the paramedics was spirit-filled and was a part of our congregation and I had just prayed, "God, send this particular paramedic" and he did. within 20 minutes when the paramedics came in, she still had no radio pulse, nothing in her wrists. But of course, you know, she

she was breathing and there was blood in her neck, pumping; a pulse. And so, the spirit filled paramedic said to her-- and her husband was there again, a doctor, who was giving approval to what was taking place. But the paramedic said to her, she said, "Miss Ann Keller, if there was anyone else lying on the floor, I would already have loaded on the stretcher and we would be on the way to the hospital. But she said, I'm asking you what you want to do. This is what she said. She said, Well, that old devil. She said, I think I've become the object lesson as my message tonight. That old devil thought he was going to take me out, but he couldn't do it. And so, within 30 minutes, we gave her something to drink. The paramedics said do you have had some Sprite or something. We gave her something to drink. And within 30 minutes, she was on her feet. She walked out of the church. She went home that night. Her daughter also was a physician here in Hattiesburg, Mississippi. She went to the hospital and for three days they did tests. They could find nothing but the power of the message in tongues and the corporate agreement, the synergy that those prayer warriors praying in the Holy Ghost, praying in their heavenly language. I believe the super intercessor Himself, Holy Spirit, showed up in every believer that was standing there that night, and we saw the authority of resurrection power and life come back into a saint that had preached and stood for the word of God for years and again I believe that it was the synergy of that intercession. And so, it is a testimony when you don't know how to pray or what to pray, or even when you are in a life and death situation. The power of praying in tongues. The power of tongues and interpretation is invaluable. And so, that's the testimony. All praise to Jesus.

Clay Nash [01:00:29] Amen. Thank you for that, Betty. You know, we all have had those times. One of the greatest miracles I saw was an overwhelming situation when a young Navajo child died and four or five of us just simply got around him and prayed in the spirit for quite some time. But that child came back to life, was raised from the dead. So, it's key. Greg Hood, you're with us. What have you got to share? And I'm going to ask you to start us off praying and in tongues over the nation. You know, I've never seen the constitution being just slaughtered like it is. There's so much going on. We have so much of our military that's under assault. Our health care system is under assault with all of these mandates are saying that the constitution backs it. it does not. And so, you share what's in your heart and then lead us off as we end the call tonight praying in tongues.

Greg Hood [01:01:34] Yes, sir. Thank you, Clay. I want to just share something very exciting, I believe tonight as we pray in the spirit that they're going to be many on this call that may not ever received a prayer language or been baptized in the Holy Spirit Are we going to receive that tonight. I just release that expectation. I know by the spirit that some are asking, Lord, can I have this? Some are thinking, Lord, how do I get this? I believe that you've heard one of the best messages, teachings, explanations put together tonight from these host, and I just want to release you tonight faith to receive that. You know, one of the things that I like to tell people when we talk about Holy Spirit is that he is actually the promise of the father. It's amazing that a lot of people don't know that. But in Acts chapter one and verse 4, he commanded them it says, not to depart from Jerusalem, but to wait for the promise of the father. Wow, everybody thinks you know, in years, Jesus is part of the prophetic fulfillment of a promise, but Holy Spirit is the promise. And one of the things that we don't hear a lot is that the intent of God's heart was not to get you into heaven, but it

was to get heaven into Earth and in the way doing that is getting Holy Spirit into your body, living in you, occupying you. And you say, Well Greg, we're not going to heaven? Yea, we're going to get to go to heaven. But Jesus said in Matthew 6, He said, "When you pray, pray your kingdom come, Your will be done on Earth as it is in heaven." Well, Father knew that that couldn't be done on our own, in our own capacity. So he made us a promise. And that was the promise of the return of Holy Spirit to live in a temple, a new temple called mankind. And so, family, I want you understand tonight that it is God's will. It was God's plan. Jesus went to the cross so that Holy Spirit could get back into the Earth, fill you, cause you to become empowered with heaven's power so that you could walk out your purpose so that you could begin to live the destiny that God has for you. I'm like Dwain and Jacquie, we were raised in the same group of folks and we always thought it was of the devil. I was told speaking in tongues is of the devil. Well, I got to reading about it in the Bible and I couldn't find it. One night in Tupelo, Mississippi, I had a prophet by the name of Leland Davis lay hands on me and I received the Holy Spirit and I got the left foot of fellowship out of that group. And I've been with the "charasmaniacs" ever since. But I want you to know tonight there's power in this. You've heard testimonies about people being raised from the dead. We had the same thing happen in Guyana. We had it happened on Highway 45, south headed down through Mississippi, Meridian, Mississippi, going into Alabama and down into Florida, a car wreck, people died. We prayed over them in the spirit God brought them back. The Bible says, it's been quoted tonight too, that the spirit helps us pray. The spirit empowers us when we pray. You know, we minister prophetically a lot Clay And one of the things that I do really to help me focus and just to not think about me and the things going on my life is I pray in the spirit a lot. And one of the things I think that helps stir the prophetic, it stirs the gift of prophet as well, stirs us up, helps us focus. But I want you to know too tonight; it is a promise of God to you. God made you that promise. And if you'll just receive Him into your life. Well, How do I do it? Same way you got saved, you do it by faith. you ask him the scripture, says. "Father, I ask you for Holy Spirit. He Says when you do that, he won't give you a stone. He won't give you anything but what you ask for; holy Spirit. And so we're going to pray over you tonight, before we pray in tongues. And We're just going to believe tonight you're going to receive this baptism of Holy Spirit. So, father, tonight I'll just release over everyone listening on this call tonight. Father, just this infilling of Holy Spirit. just begin to ask Him for it right now. Father, fill me with your Holy Spirit. I receive it in the name of Jesus. I thank you for it. So, father, as hey pray this tonight, I just thank you tonight, father, that you're supernaturally you're moving across this nation. You're moving across this world where people are listening on this call from other nations tonight, father, and you are baptizing people that have asked you for that tonight for the Holy Spirit, with the evidence of speaking in other tongues. Father, I thank you tonight, that there is also a fresh infilling, a fresh baptism of your spirit that is pouring over your Ekklesia tonight. Father, we thank you, we receive this tonight in the name of Jesus, and we thank you tonight, that Holy Spirit begins to pray through us, father, even over our nation. So let's just begin to pray over the nation tonight in the spirit.

Hosts [01:06:46] [Praying in the spirit]

Greg Hood [01:08:59] I hear the spirit of the Lord say tonight over America, over my church, My Ekklesia within America, I'm bringing a fresh fire to you this evening, says the Lord. I'm pouring out upon you, my spirit tonight. There's coming a different measure, a greater depth of what you've walked in. I've pulled back a veil over this nation, says the Lord. And I'm bringing my people into a secret place, a place they've Not walked before and a place they've not seen before. My Ekklesia, I'm bringing you close to my chest. I'm showing you things that are to begin to come within this nation. You will by my spirit begin to decree into this nation things that you've not heard before, things that you've not seen before. For this is my timing for America, says the Lord. I am bringing the baptism of My fire across this nation, from the east to the West, saith the Lord. I'm beginning to bring a fresh infilling upon my people. You will say "we've never experienced this fire before. We've never known this fire before. We've never seen the depth of the spirit before." For I would say unto you tonight by my spirit, says the Lord, receive this thing that I'm imparting onto you, for it will break things from you, that have held you. For, this is a season of not only bringing you to another level, but breaking off of you, a season of breaking off of you, says the Lord. I hear the spirit of the Lord saying tonight that I'm releasing a freedom within this nation, within my Ekklesia. You're going to begin to see favor come upon you that you've not had. You're going to begin to see people gather to you that normally would not gather to you, says the Lord. You're going to find yourself in open places, in market places, in business places, in educational places, says the Lord. And people will begin to be drawn to you. Not because of something that you're saying verbally, but because of the fire of my spirit that will begin to flow forth from you. things that they cannot see, but things that you will know, says the Lord. And the power of my spirit will begin to draw them to you. And as they come to you, the Lord would say to you tonight, expect repentance from them. They will begin to say, You convict me of my sins. What is this thing that you have? I want this that You have. I need this that you have. They will begin to Inquire of you. I would say to you tonight by my spirit, Ekklesia, lay your hands upon them and begin to pray in the Holy Ghost, as you begin to release my spirit over them, they're sins will be forgiven, says the Lord. And they will be filled with my spirit and they will leave your presence a new man. They will begin to see themselves activated. They will begin to see themselves released. for I'm not looking for the one that is aged or the one that has been living within the walls of a building for many years. But I'm looking for those that are hungry for me. I'm looking for those that are thirsting for something the well of the world cannot give them And I'm giving it to them, says the Lord. I'm giving this nation a drink of my spirit in this hour that they have never drank from before, and I'm pouring the fires of revival out, says the Lord. So go to these places I will send you. go into these places that you say I would never go to this place before. For I'm leading you there, says the Lord. And I putting you on assignment, My Ekklesia in America where I am determined within my heart to have this nation. I am not backing you up. I am thrusting you out as an arrow shot from a bow, says the Lord. And you will hit your target. For I am the marksman in this scenario, says the Lord. So, receive this thing that I'm doing for you. And receive this thing that I'm doing in you so that I may have this nation back. For My plans for her have not changed, and my heart for her has not melted away. But I have grown stronger in my determination, says the Lord, to push my Ekklesia into this deeper place. So receive this thing that I'm pouring upon you tonight and receive this that I'm pouring out of you, says the Lord. For This is my spirit. A fresh touch. A fresh flow that will cause you to walk

deeper with me than you ever have before. I hear spirit of the Lord saying tonight , that as you receive this and you steward this. you're going to begin to see your families come to know the Lord. You're going to begin to see those that you work with, come to know the Lord, and you're going to begin to see them activated in the things of the kingdom. I hear the spirit of the Lord saying tonight that you must prepare your heart for as you receive this that I'm doing within you there will be many that would try to reject him and push you away. But know it's not you that they reject, it is me. Receive this thing, the Lord says, and go and let them be who they are and let me be within you who I have called you to be, says the Lord. So, stand up and step out in this new thing that I'm doing within you, say's the Lord.

Clay Nash [01:14:27] Wow! Strong, strong, strong. Anybody else on the call have anything to add before we close the call out?

Regina Shank [01:14:36] Yes. This Regina. for this is a season of the clashing of swords. The swords are clashing even now and I have put my sword in your mouth. And so I say to you tonight, speak out the words of your holy spirit, speak out the word. And that clashing of the swords will break through the veil of the occult that is all covering the fraud covering that which is happening in darkness by the devious deeds of men. And it is time for you to speak out what you are hoping for. It is time for you to decree out by the words of your mouth because the word in your mouth is the sword that will break through the darkness and will break through the oppression of your family. will break through the oppression that is on your finances. The word in your mouth will be that sword that gives you breakthrough. And if you don't know what to pray, pray in the spirit, pray, pray, pray and decree. For I am giving you breakthrough even now, says God. For you have come together corporately to pray in my holy spirit. And because you have done that, breakthrough has come. I began to see even us pushing through boulders that have been in the pathway of the people of God. And those boulders are being broken through today by the words of our mouth, the words that we pray in the spirit and the decrees that we make from the spirit of God within us. So, this clashing of swords is here and your sword is in your mouth and I decree to you, you must use the words of your mouth to bring breakthrough in this nation and in your own personal life, says the Lord.

Hosts [01:16:14] Yes, Lord. Yes, Lord.

Clay Nash [01:16:21] Amen. Anyone else?

Pat McManus [01:16:25] For even as you step out into the authority of my hand. I'm taking the mantles of yesterday that which has been encompassing around your life. And the Lord says, I'm breaking off the strategies and structures of the old order. As you're stepping into the realigned, refined expression of the power of my spirit. For even as you step into the truth of my hand, you'll begin to move with authority throughout the land. And the Lord says even as you remove the mantles of yesterday, the old orders and structures and systems of yesterday, The Lord says you'll be empowered to pursue the purpose of my heart. And you begin to move forward and fully in the understanding of my hands. For the Lord says, even as you step into the realigned order of my way, you'll move in authority

and power to demonstrate in a whole new way. The Lord says, get ready for the realigned and reordering and the shifting of that which I'm about to do. For even as you step into the purpose of my hands, you'll demonstrate all that I am. So, allow My Holy Spirit to engulf to dismantle, but to remantle, according to the purpose of my hand and you'll move with authority and to reclaim the land, says the Lord. If.

Hosts [01:17:39] Yes, Lord. Thank you, Lord. Thank you. Lord.

Clay Nash [01:17:42] Amen. Anyone else?

Hosts [01:17:50] Thank you, Father.

Clay Nash [01:17:51] So, Father, we thank you for tonight's call, and we thank you, there was a stirring of the spirit. And each time we prayed in tongues, Father it connected. It brought heaven into Earth. Father, we pray over those on the call. I just feel like God's saying that some of you are going to go to bed with a freshness in your prayer language, and some of you going to wake up in the morning and you're going to have a prayer language where you didn't when you went to bed tonight. So, open your heart. Seek the Lord about that. Acts 19 Speaks about Paul asks a few people if you've been baptized in the Holy Ghost. And they said, we've not even as much as heard and the scripture talks about Holy Spirit coming upon them and them speaking in tongues. So, we bless you tonight. We will be transcribing this call as We always do on Tuesday night, and we'll be back here on the call tomorrow at 2:22. Do not forget to be praying for Amy Miller. We believe she's settling in, adjusting to this. Her oxygen levels, or the need of oxygen is going to go down. Her Oxygen in her blood is going to go up and she's going to get a good night's rest and we're just declaring that tomorrow is the turnaround day for her. Bless everyone. Thank you for being on. incredible night, incredible insight tonight and an incredible empowering anointing upon each of the hosts tonight. So, thank you and thank you all the participants for joining with us tonight. God bless you all.
