Judges 8:4 When Gideon came to the Jordan, he and the 300 men who were with him, crossed over exhausted but still in pursuit.

The Lord said, "Tell the people a crossing over is about to happen. Tell the people, do not become weary in their well doing. For this Through Season has been extremely hard but there is a Due Season coming after you cross over. For surely there will yet again be in this nation a land of milk and honey." But the Lord said, "There will be some giants to slay in this land." The Lord said, "Fear not. For not only will the giants fall, but their heads will be severed by the very swords they carried. So get ready to cross over and be refreshed on the other side."
