

Triumphant Prayer Call for Righteousness

Tuesday Night Prayer Call

Date: 2021-09-14

Topic: Gina Gholston Dream, Fires of Revival

Clay Nash [00:00:14] Well, greetings. It's 9:00 p.m. Eastern Time, and it's our Tuesday night call. Dutch on Sunday...on Monday, excuse me, on his GiveHim15 talked about a recent dream that Gina Gholston had had and Dutch this past weekend, flew into California and was there and in acts of obedience, went to some places there about releasing the fire, God's fire, across this nation. You know, we've been prophesying for some time now that we need to call upon the God that answers by fire. Two things that the fire of God does: It consumes. And it also set people's heart on fire. Many years ago, many years ago, God reached down into my life. He had been reaching, but he...I ran everywhere I could and he got a hold to me. And he pulled me up out of the miry pit that I'd dugged myself into. And he put a fire in my heart. And I can tell you that 40 years later, that fire burns as clear, as pure and as bright as it ever has. And I know the fire of God's coming to our nation. I appreciate all of you that join the cause. You're so faithful to it. The hosts that we'll have on tonight. But we're just going to take the time. We're going to take Gina's dream and we're going to pray into what Dutch released through acts of obedience while he was there in California. And we're believing that that fire is going to spread across this nation. Of course, In the dream I-40 was mentioned, you know, the end of Isaiah 40, speaks about: "they'll run and not become weary." And I'm just telling you, there's a freshness that's coming with the fire of God. People are being rejuvenated, visions are being reconstituted, and we're going to move forward. So, I'm going to call my friend Pat to open us in prayer and talk about the dream.

Pat McManus [00:02:20] Thank you, Clay, for the opportunity to be with you all and to link our shields together across our land. So Father, we thank you that as we position our hearts to be able to step into your truth and be able to hear what you're saying to the church, give us ears to hear and eyes to see what you're releasing so we have clarity for movement and be able to walk in the fullness of your heart and to impact culture like you have never seen before. So we thank you, Father, in Jesus name. I'm going to read the dream:

"In a dream, I first saw a runner positioned in starting blocks, and then he began to run. His "starting line" was on Interstate 40 at the North Carolina and Tennessee border.

"The runner was moving at a supernatural pace. He was running across America going west on Interstate 40. He was running so fast that his feet were on fire, and he was leaving a trail of fire behind him—and the fire never went out.

"He ran to the end of I-40. Once he reached California, he made a left turn and moved down into the city of Los Angeles. There, at a specific location, he turned around. It was then that I could see the runner was Dutch Sheets. He had the number 8 pinned on his chest." [Dutch's comment: 8 is the number representing new beginnings in scripture.]

“The ‘specific’ location Dutch had reached was the site of the Azusa Street Revival. At this place, there was a ‘geyser’ of both fire and water shooting from the ground up into the air. (This reminded me of the Red River Meeting House Dream.)

“Dutch literally stepped into the geyser, became saturated with the water, and was also carrying the fire all over him when he emerged.

“When he came out of the geyser, Dutch bent over slightly, cupped his hands on either side of his mouth, and with all of his strength shouted one word very long and loudly: ‘FIRE!’ He was declaring this over the nation.

“Instantly, the sound Dutch released was amplified and was rolling out in wave after wave of power that traveled all across the U.S. - all fifty states. (I didn’t see this in all of the states, but I knew it was happening!)

“Dutch then made his way back to Interstate 40 and began to run back toward the east. I could see the fire was still burning where he had previously run on the westbound side of I-40. His feet were still burning, and he was again leaving a trail of fire behind him. He was now also leaving a trail of the water he had become saturated with at the Azusa Street location...”

Clay, there's a couple of things that I saw as I looked at this, and Number One was the fire and water that were shooting. Water for purification. Fire for empowerment or activation or stirring. And we need to receive the fire and receive the water of refreshing being able to connect the pieces together. And down at the bottom it said, when Dutch had began to explain some things, he says, "we must think different and in other words, he said, "think revival, think miracles and think fire." And the reality is the church is coming into a new aligned identity and they are coming into a place of how to be able to partner with the fullness of the expression, with the heart of God, to be able to see the fire of God beginning to burn within but the water of purification to move across our land. I remember a message that Tim Sheets spoke on the standing King anointing. And I make reference back to all the revivals that took place throughout our generations. And in one outpouring, all the previous moves of God being poured out. And I believe that this is the part where God is releasing all of the previous moves of all the revivals of the past being poured out again upon the church, upon the Ecclesia, coming into a clear understanding of its identity, its significance and purpose to be able to receive and move forward in the fire of God, to be able to set the captives free, but also the purification to truly cause a realigning of the greatness of God in the hearts of the people of the Lord as we move into the understanding of God's heart to strengthen us into our true sense of purpose and destiny. So I'm going to do this: "Father, we thank you for the opportunities that you're releasing the fire of God upon us. And that father, there is a fire burning from east to west and west to east. And that father, you are igniting a greater expression of the glory of God as we begin to step in to, have understanding of the identity that you're releasing upon our land, that father you are activating again, the previous moves all in one point where you're pouring out the merging together of all that you are in one time, in one season to impact the states

from north, south, east and west. And that Father, you are igniting with a true sense of authority and power, the church to come into a true sense of understanding. We say this day, receive the fire of God. We declare this day, let the fire of God begin to burn on our land, let the fire God consume everything that needs to be consumed. And that, Father, even the fire of God will purge and empower everything that needs to be ignited in you. so father, break the chains and shackles of religion as the fire of God burns the restrictions and hinders. But, Father, we say the fire of God is burning and empowering, activating and stirring and moving with authority to begin to move with power across our land. so, Father, we declare: Let the fire of God burn with intensity and power to truly move with authority in this hour and let the rain and let the saturation of the wells of revival, all the wells of everything to be ignited. Let the gushers of that which need to be seen, be seen, and let the ecclesia be saturated with the movement of God and empowering and linking together to see the Kingdom of God advance in this hour. So thank you, Father. You're teaching us how to rethink, your teaching us how to seek miracles. You're teaching us how to think the fire of God. You're teaching how to think the revivals of God. You're teaching us how to think on the movements of God, preparing us for the purpose of acceleration in you. So father, we thank you for what you're about to do. We give you honor and glory in Jesus name. Amen and Amen.

Clay Nash [00:09:06] Amen. Thank you, Pat. That's a great start. The dream is very clear about what God is doing. Dutch felt as he was there this weekend at some very specific places that he was to release the fire. I got a call this afternoon from a precious intercessor in California and I think she said different prayer teams had did some acts of going to different places there where there have been bloodshed and some things just recently. And right as they were finishing up, the wind of God came and it actually blew in on one of the natural fires that's bringing destruction out there. And there were just some marvelous things that came out of it. I was so encouraged hearing from him. But I just want to take a moment before Dr. Dwayne Miller comes on. And I just declare into those natural fires, which are bringing destruction to the state. I declare that the wind of God can blow up on them and cause them to be extinguished. I just declare that they will not continue to do damage there. But I also release the wind and fire of God in this election that's taking place. It's winding down to where the polls will be closing shortly and we just declare that the fraud and corruption and I saw a report a while ago. I didn't vet it out, so don't quote me on it. But I did get a news bleep that came through that said, as much as 70 percent of Republicans that are voting today are getting told they already had voted, I don't know. It wasn't from a news source, I wasn't able to vet it. But if any are coming up with that. And I've heard from some myself today that text me and email me from California said that when they went to vote, they were told they had already voted. So we just declare that this wind and fire and even the water of purity that Pat had mentioned, we declare there is going to be a pure vote count out there and we declare that heaven is speaking and heaven will continue to speak and heaven will touch earth. And as the two touch God's will will be done. We declare that now in Yeshua's name. Amen. Dr. Miller, what's in your heart tonight?

Dwain Miller [00:11:30] Good to be with you, Clay, and enjoyed and agree with Pat in his declaration. one of the things I would point out is that where North Carolina and

Tennessee come together in the late eighteen hundreds, there were a group of men led by a Baptist preacher named Sperling that had the power of the Holy Ghost fall. You had a Azusa on the West Coast and you had this group on the east, right on the border of Tennessee, North Carolina, where this dream began in that area. And that became what is today, the Church of God in Cleveland, Tennessee, a Pentecostal outpouring of Holy Spirit. So that's significant that the dream starts there and that the dream ends at Azusa Street. And it's also significant that it made its way through I-40, which comes right through Arkansas because of the outpouring of Holy Spirit in 1879. Southern Baptist preacher William Jethro Warfalla here in Arkansas and so Pat's totally correct. What God has done in the past, he is gathering all of that together in one great outpouring. And the synergy of the ages is coming together. And when we we're going to talk about fire tonight. As a matter of practicality, one of the things that God used fire for in Scripture was to raise up a deliverer and we are in that season where the Ekklesia is America's deliverer. And when you talk about wind, we just entered the year 5782, prophetically, we're in the year 5781. And the 5 there is the breath or the wind of God that is bringing about an awakening. And that's what's taking place right now in the Ekklesia in America; the breath of God bringing about an awakening so that there can be for the Ekklesia and for this nation, a new beginning. the 8 there also means a new beginning that makes one fat. In other words, a time of abundance. And prophetically, the year One is the year of the ox or strength under control, supernatural strength. I say all that to say that fire is what God used when he got Moses attention out there in the wilderness in Exodus chapter three. When he saw this, Moses made the statement that he had to go see it, he had to go see this bush that was burning but not consumed, and I certainly won't take time to teach all of this, but I wanted to point out that Moses was in a season of dryness. He was in a season of out there in the middle of a desert, just being a goat herder, and I know many in the Ekklesia are discouraged right now. Many of us are under unbelievable attacks. And we know that I received a prophetic word today after today's prayer call that this thing that's attacking right now is a spirit of Leviathan that is breathing fire; the enemy's fire. But dryness always precedes destiny. And I would encourage everyone tonight that no matter how difficult the attack and how dark the moment, this is all just living proof that we are about to enter into our God ordained destiny. And when you see God use fire among the Hebrew people, He always used fire to impart the vision. And to restore the dream or the destiny. To impart the vision and restore the destiny. And the fire of God is not about geographical location, but a spiritual manifestation that results in a shift into a new dimension of supernatural revelation. Let me say that again: The fire of God is not in a necessarily Geographical location, but it is a spiritual manifestation that results in a shift into a new dimension of supernatural revelation. I know that's one of the things you're referring to that happened to you years ago when the fire God transformed your life. Just as a moment of practicality, if I can just take the time to do this, I don't know that we have a lot of hosts on the call tonight.

So, I just want to encourage people out there listening. When you come into the fire of God. You come into the fire of God because you've reached a place where you've discovered that you've run out of self efforts. When we find ourselves in a place where we have nothing left to offer God and we're at his mercy, that's when the fire comes. the fire comes and when it comes, it turns the ordinary into the extraordinary. when the fire comes, it brings supernatural revelation. When the fire comes, there's really only one response,

and that is worship. The fall on our face and worship God. to take our shoes off our feet and surrender. When the fire comes, that's where mantles and callings are issued, just like on Moses in that experience with the bush. when the fire comes, god affects the lives of individuals and the destiny of nations. If I could say that again, when the fire comes, God affects the lives of individuals and the destiny of nations. And so the fire of God that this dream talks about sweeping across this land. The fire of God that Dutch has gone out and released into America is a rallying cry. But the message that we must take heart in is that God always used fire to raise up a deliverer and that's what the Ekklesia is. So, Father in the name of Yeshua, we know that our circumstances do not change your word, but your word changes our circumstances and we say let the fire of God but breathed across this land. Fire of God be breathed across this land. And coming into agreement with Pat, that you gather up the synergy of the ages and the outpourings of God in this country. And in one mighty outpouring of a vat of fire you pour it out of this land once again. Lord, the enemy is a liar. He is defeated. He is Leviathan, foaming at the mouth and blazing like a dragon. But his fire is worthless. His fire is quenched by yours. And so we call on the fire of God to once again burn in this land so that your people are awakened to the idea and the reality that we can't do this. We are out of self effort. We are out of personal energy, and we're in a season of attack and dryness. But God, destiny is in us. Your promises are yes and amen. And you've not changed your mind about America and you are pouring out the extraordinary upon the ordinary and you're bringing supernatural revelation and God, when this fire comes our response is going to be to fall flat on our face and worship you. To say, "Lord, there is but one God. And he is Yahweh. He is Jehovah. He is the Lord Jesus Christ. there is but one God and that one God is Lord over America, that one God is Lord over our lives. That one God is the salvation of our children, the destruction of covid. It is the the death of the enemy's stranglehold on the government of this country. God, we just come into agreement with Dutch and say, let the fire of God be released across this land. And Lord, we bless you for it in Yeshua's name. Amen.

Clay Nash [00:19:58] Amen. Thank you for that. I couldn't help but think when you was talking about that fire, you know, the fire that burns within Susan and I, the fire that burns within those of you that we run with, I've found it to be the fire of the passion for God, not just for his things, but for God. But I wrote this just, I don't know, a short time ago. You have to do the things you have a responsibility to do until you come to the point that you get to do the things you have passion to do. And many today are missing the fire of God in the body of Christ because they want to go... We've come into this McDonald, we call it, mentality to where we want to go from zero to 60 in 1.4 seconds and we don't want to be prepared. Another thing that I've written, I wrote it several years ago: "you'll never be prepared for the season that's coming if you despise the season you're in." Listen, seasons of preparation are many times easily despised and are not able to do the preparation work in us. I've found after 40 years of full time ministry, walking with the Lord, watching him, ministering around the world, I've found that every bit of it, as much as I've seen great things happen, I've seen a lot of miracles in those 40 years. But I can tell you it's been more about him preparing me for today. And even the things I do next week will be preparation for a day that's coming. And so, be faithful. Listen, we don't like it, but we have to go through our through-seasons so we can come into our due season. And I believe America's due season is upon this nation. But the act will say even that fatness

that Dr. Miller spoke about long ago also speaks of maturity. When it says the anointing oil destroys the yoke that was actually speaking about the fatness of an ox. Once he got fat enough that the yoke, his neck, the fatness of it broke that yoke, he no longer wanted to go under the fence or over the fence. He had come into maturity and he understood that God's boundaries were not limitations. God boundaries were the opportunity for motion, for movement, for momentum and for increase. And so I just want to release as I just declare in the hearts of those listening on this call tonight, that this fire that Dutch is releasing and the Ekklesia, not just Dutch. The Ekklesia is releasing across this nation, I declare that those of you that are still in that season of preparation, you're going to move out of despising how hard it is, how challenging it is so that you can appreciate the season that's coming and you can be not just fulfilled in it, but you can fulfill your destiny during that time. I declare this over the listeners of this call and those that will even listen to it later. I call you up into that place of maturity, into that place of authority. And I declare that the Ekklesia is rising. The Ekklesia has stood, even as the standing king because we're within him. And I declare and decree over you that you're going... Words are going to begin to form in your mouth, even this night during this call. And you're going to declare and decree into situations in your family, your friends, your workplace, even over, you know, to be vaccinated or not vaccinated, whatever your choice is, you're going to decree and declare over those things. But I also declare and decree into that election that's finishing up in California. And I declare Heaven's will be done. We declare over California even right now. We declare "hear ye the word of the Lord and let it come to pass" and do so in Yeshua's name. Amen and Amen. Jacquie Tyre, good to have you with us from Georgia. What's in your heart?

Jacquie Tyre [00:24:22] Well, there's a lot of things bubbling around, so I'm going to dive in and see where we go. I keep hearing this phrase from the Lord as we began this call tonight and I heard him say, "my church must deal with their fear of fire. And I know that doesn't apply to most of us on this call, and definitely none of us as hosts, but the church at large has often had a fear of fire that it would be out of control. that It would be... They couldn't manage. We've all heard it said that, you know, in many churches, if Holy Spirit didn't show up nobody would notice the difference. And that's a sad commentary. But I believe that part of what this dream is and what God is doing in this nation right now is he is finding the places that are not afraid of the fire to pour out his fire. And then as it grows, it will increase. That's what happened at Azusa Street. It's what happened at the Shearer schoolhouse. that's one of the places in the area where Dr. Miller was talking about. That's what happened in Arkansas. God looks for a place that has been prepared by a people that, yes, they've recognized their dryness and they say, God, my way of living, my way of faith isn't working. I've got to have you. I know that's what happened to me 30-some odd years ago when the Lord said, are you tired of living life your way? And I said, Well, yeah, it's not very good. And he touched me and began to touch me with a fire, but then began to develop the capacity for carrying his fire and stewarding the fire, not by quenching it or controlling it, but stewarding so that it didn't burn out. And that is a lot of where I believe we are right now is that need of taking the fire that God has placed within us and fanning it by our worship, fanning it by our prayers, fanning it by our declarations and decrees. It's interesting that as we have stepped into this new Hebraic year of 5782 the 80 speaks of pey. It speaks of us seeking the face of God and becoming the mouth of God in the Earth.

that what we speak, we're releasing his words out of heaven and shaping our world, shaping our world by our words. So as we decree fire, we're loosing fire because that's what God is saying out of heaven. Then the second, the number 2 is for the word bet- B-E-T and it speaks of sun, of light, of blessing, of building the house. And I believe that's where we are. And I know personally, I'm sensing the Lord say prepare the House for the incoming ones through evangelism, because there is a fresh anointing that I believe the fire is birthing in God's people for evangelism. It's birthing that call to that passion, that fire for evangelism, for souls to proclaim the good news. But I also believe there is a fire that is melting the hearts that have been called a fire that's being loosed across this nation, that even those that have been cold and hard and resistant are warming up to the gospel. And as we are carrying the fire of God in purity, passion and power, we're going to be activated in the moment to speak, that we'll then see those that have been warming up to be ignited. And I could just see this happening all across this nation, from the west to the east and back from the east to the west, and then shooting up to the north and the south and in all directions until this nation is literally covered and ablaze with the fire and glory of God. I believe there are many on this call that God is going to send you into places of past revivals and have you put your feet on the ground and began to worship, begin to saturate and even tap in to those wells of revival, even as we discussed the last four weeks about out of the other dream that Greg Hood had had. There's something about getting our feet on the ground and just saying, God, we testify. We speak about what you did, again, even in your conversation with friends and neighbors and family, testify of what God has done personally, what he has done in the past, because as we've learned out of the Hebraic mindset, it is to "do it again. God, you've done it before. Do it again." We need to see an igniting of the fire of testimony to be released across this nation. So, Father, right now, in the name of Jesus, I come and I say, God, deliver your church from the fear of fire. Deliver us from the fear of what is uncontrollable. Deliver us from that which purges, deliver us from the fear of that which would keep us shrinking back rather than running to the fire. Father, I'm asking in the name of Jesus that there would be dreams, visions, encounters within your people to cause them to hunger and thirst for righteousness in a way that is so passionate, so unquenchable that they can do nothing but run. And is it even was in the dream it was the fire and the water. Let them be quenched with the waters of salvation and let each and every one burn bright with the passion, the purity and the power of Holy Spirit fire. Lord, would you do in our day what we cannot even imagine? I decree that in all the pockets across this land, fires breaking out, fires of holiness breaking out, fires of purity breaking out, fires of passion breaking out, fires of evangelism breaking out, fires of discipleship and sonship. Father let the brightness of your light be loosed upon your people in Jesus name. Let the fire of purity to see your face come forth in your people and let there be such a fire of passion burning in your people that it would cause those that have been oppositional, those that had been resistant, those that have been thinking that following Christ is boring, that they would see the passion, they would see the zeal, they would see the purity of our hearts, the love of God burning brightly in your people. That will cause the fire to spread in such a way that this land will be covered with your glory, Lord, that there would be such a release that everything that gets in the way of the fire of God will bow the knee to you or be burned up in its path. Father, I join in agreement with Clay over California and I decree the fire of God that will cause those things that are out of order to be shifted into order. will cause the righteous to burn brightly and boldly and

compassionately, but with a power that will cause a reversing of everything the enemy has done. And Lord, where out of California over the years has come so many Antichrist agendas, I declare and decree that the fire of God comes upon California. And what comes out from this day forward will be the sound of holiness of God, the purity of God and the reviving power of our Lord Jesus Christ. Let it be Father. Let it be a sign and a wonder for this nation to see what you do coming forth out of California for your glory and your honor, in Jesus name. Amen.

Clay Nash [00:33:39] Amen. Thank you, Jacquie for that powerful declaration and decrees and we are in total agreement with it. Brother Jim Hodges there in the great big state of Texas. What's in your heart tonight? So good to have you on. Glad you have a contribution. What's stirring in your heart, sir?

Jim Hodges [00:34:02] Well, I am very, very wrestling in my heart and mind about didactic and prophetic. You all covered the prophetic so wonderfully well and didactically an A+ level. So I'm just trying to find myself. I think I found myself so be encouraged. Let me just lay this out right now. Of all the expressions of how God moves or intervenes, to me, it might appear, I would argue this, at least at this point, that the most intervening movement of God is designated as fire. And of course, Apostle Dwain Miller talked about the fire and the whole issue there with Moses, God intervening in his dryness to bring him to his destiny. I've already plagiarized that. But I want to just say what what goes off in my spirit right now is Malachi, particularly 3 & 4 and I'll start with 4 because he says the day is coming, burning like a furnace. And of course, that's a prophecy about the Messiah's day. And when he comes, he's the baptizer, right, in the spirit and with fire. And so another reason albeit that fire is the most intervening expression of God among all the ways God can move is because of Mt. Carmel. That's pretty obvious, right? A God who answers by fire. But the day, if I'll be briefly, that Malachai in 3&4 addressed is obviously the day of the Lord, which has two main purposes through the Prophets teaching. In Chapter three, he says, "Who can endure the day of his coming? Who can stand when he appears? He's like a pillar of fire and like a launderer's soap. he will go on to purify all the sons Levi. No time to develop all that. But to me, this is the fire that purifies the people of God. You know, when Jacquie prayed that awesome prayer about the church not being afraid of fire and thereby quenching it or ignoring it. Wait a minute. The fire, we need the fire of God's people. We must be ignited so as to deal with what must be dealt with. And without {inaudible} that, Israel had to be dealt with. And so the Lord says "I'll come, I'll purify, I will cleanse, I will remove and get you ready to dump my instrument once again to stand up for my purposes." So that's the first purpose when the day of the Lord comes, in Malachai, is to purify God's people, especially the leaders who I might add here, in light of what Jacquie shared, are trying to quench fire or just dismiss everything as wild fire. someone said one time they would rather have wild fire than no fire and they could maybe begin to corral it or do what we need to do so...moving right along. The second purpose, of course, we know is to remove the whip, because in Chapter four, the day prophesying Messiah's coming like a furnace will be war. Take the arrogant, evildoer and make them as chaff and that they will set them ablaze. But for those who fear my name, the son of righteousness will rise with healing in his wings. You will go forth and skip about like calves from the stall, you'll tread down the wicked for there will be ashes on the soles of your feet on the day,

which I'm preparing, says the Lord of hosts. So there's a lot more that can be said about the day of the Lord. For It is a day of vengeance upon God's enemies. It's a day of A vindication for God's friends. That's what the Exodus was, etc.. But the thing that impressed me about what Malachi's calling out is fitting so much where we are today, because God has ignited an Ekklesia people. and this ignition is in motion and Gina's dream dramatically pictures that and you guys explained it better than I can. So I'm excited that what's gotta happen in us and by way of the fire, if you will, new baptism of fire, which set down upon each head of Pentecost, is for the purpose of dealing with the wickedness and the wrong way we're going in America and our government, in our culture. But there is a people of fire. I love Gina's picture. Dutch's feet were on fire. I think Tim might argue that he could run the ball faster than Dutch in high school football. But if you got fire on your feet, you're gone move pretty quickly. So, Lord, just thank you for releasing the fire. Fresh fire to cleanse and renew. Remove all the {inaudible} Lord and all the impurities that we may be that we may be that redemptive silver and that gold that represents our heavenly king that's enthroned on high and then to bring forth the fire in the people of God released out in the culture, in the nation and deal with all this wickedness, whether it's corrupt elections or corrupt politicians or those who worship Moloch. we just say right now in the name of Yeshua, baptize us again in your fire in.

Clay Nash [00:39:33] Amen. Thank you for that. Are there any other hosts that got something burning? Maybe you've already decreed but something's burning and you want to release at this time.

Dwain Miller [00:39:47] Clay, this is Dwain...This is Dwain, Clay.

Clay Nash [00:39:49] Yeah, go ahead.

Dwain Miller [00:39:49] I just want to come into so much agreement with Brother Jim and Jacquie in what they were saying, and 5782, again, prophetically, we're in 81 because they started the calendar with a zero and not a one. So always keep in mind prophetically we're a year behind, however, talking about the 2, which is not only the number of multiplication. Talking about the harvest, but Jacquie was referring to and yes, it's going to be a massive harvest. But the 2, also is the number of division. And I'm going to say this in love, and I hope I'm not misunderstood, but outside of the Ekklesia, you're going to see the nation, even in a greater division than we are now, that's hard to imagine, but God, as brother Jim was saying, He's dividing the wheat from the chaff. He's dividing because he's getting ready to pour out that vengeance and vindication. And what we're doing this year into next year is setting the stage for that and so America, is we're going to see great multiplication in the Ekklesia and the kingdom of God, but we're going to see division like never before because God is getting ready to expose and he is getting ready to exterminate the enemies of his kingdom in this country. And I wanted to release that because this prophetic year, 5782 and 5781, it's a tandem, prophetic word. It's like these two years run together and they are operating hand in hand. So I want the Ekklesia out there listening on this call to understand that some things, especially politically and some things in the world of denominationalism and religion, ok, not the Ekklesia, but the religious church. They're going to get worse before they get better. they're going to get worse. And

I'm telling you, if you think that it's bad now, just hold on. But it has to. So that as Brother Jim's prophesy, when the fire comes, what the fire will be will be vindication to us, but it'll be vengeance of God on his enemies. And so I just wanted to throw that in here toward the end, Clay.

Clay Nash [00:42:35] Yeah, thank you. Thank you, Dwain for that. You know, let me just say to everyone on the call. Tonight, when you get off the call, read Isaiah 4 if you want to know where we're at prophetically as a nation. Read Isaiah 4. And I'm going to read just maybe a scripture or two. Verse three says, "and it shall come to pass that he who is left in Zion..." Now it's in my book on relational authority. But Zion speaks of the manifested presence of God. And Zion is where we're deployed from. Adullam was a place, the cave there of deliverance. Hebron was a place of development. But Zion is a place you're always deployed to do God's will, to do heaven's will from his manifested presence. But there's something that's been rising up in my spirit all day. And then again tonight on the call and it said, "who is left in Zion, or remains in Jerusalem, will be called holy. Everyone who is recorded among the living in Jerusalem." I'm telling you, this fire that's coming, this fire that's being released, it's going to have a purging effect. It's going to have a removal effect, but it's going to be those that are recorded among the living that will operate as the Ekklesia. Too many today are wanting to live out of their priestly anointing. And they pray and they intercede, but they never step into their kingly authority to where they declare and decree heaven's will into the earth. This is where we're at tonight. And so I want to end tonight's call with making some declaration over everyone that's on the call or will listen. It's actually over those in the body of Christ. But it is the Ekklesia that's stepping up and embracing words like this. So tonight I just declare the body of Christ in this nation, which has been washed in the blood of Jesus Christ. We not only carry that blood, we carry that kingdom DNA. I declare that we will make declarations and we will come into agreement with each other. I declare we are his Ekklesia, that we have risen and we have taken a stand in authority. I declare that we are warring for the marrying of the apostolic and prophetic to a whole new level. I declare that heaven is open and earth is becoming invaded with heaven. I declare that storehouses right now are being unlocked. I declare that those storehouses are filled with miracles, creative body parts, life for lungs, for Amy's lungs. I declare that signs and wonders are coming out of those storehouses. I declare that there will be even greater dreams and greater visions that will come. I'm declaring that those that are hard-hearted against God, those that are not even Christian, are going to begin to have angelic visitation in this nation. even its happening in the Muslim nation. I declare that these declarations and decrees that will begin to come from the mouth of the Ekklesia will just barely be released and the manifestation of what is decreed and declare will take place. I declare that we will begin to have these greater angelic visitation that's going to awaken. I release that over DC. I release that over the White House, I release that over California. And I declare that we are thankful, Lord. we thank you for divine manifestation of your grace and your mercy. I thank you, Lord, that anointing's, gifting's, calls are bringing about a people to be positioned, but most of all postured in their God given authority. I declare it's time for promotion. For those who are posturing, themselves in that God given authority. I Declare it's time for promotion of the Ekklesia to higher levels of authority, I declare that it is time for the Ephesian 4:11 functions to be aligned together. I declare that there will be provision and resources for our nation to send forth the other

nations of the Earth. I declare souls and more souls will become born again, but Father, they will be discipled from every age group. I declare that they will be saved and made free. I declare that those that come into the kingdom at this time are going to carry Kingdom revelation. But not only carry it, they will walk it out with spiritual understanding. Let these declarations come to pass. Let it fill the hearts of those on this call. Let the Ekklesia's declarations and decrees rise to another level and let Heaven invade this nation. Let Heaven invade California. Let Heaven invade Washington, D.C.. Let Heaven invade the White House. Let Heaven invade hard hearted hearts. Let it happen now in Yeshua's name, Amen and Amen. I declare these things. Just want to check and see if anybody has anything that's just burning that you need to release at this point.

Dwain Miller [00:48:29] Clay, David...David had a word. David?

Clay Nash [00:48:32] OK, I missed that, David, you got something?

David Hertel [00:48:36] Nevermind. After those declarations, just want to say, you know, I guess there's a fine line between redundancy and confirmation, but I just want to say that I'm convinced that fire that was trailing Dutch or on his feet, I can't remember how it went. It's so confirming to me that the Holy Spirit is converging revival fire with governmental authority that we're going to see it. And those who are used to one or the other are going to have to get used to stewarding both and walking in both. And it's going to be exciting. It's an honor to be on this call with you guys and listening to you, learn a lot. God bless you and agree with all of that, Amen.

Clay Nash [00:49:20] Amen thank you, David, for that I overlooked you on the thread that you had something to share, but we appreciate. And we value so much what every host brings on these calls and God interweaves it together. He's bringing together a tapestry. The other day in prayer, while we were on vacation, I just had this feeling and I'm just gonna release it. It was just more of an unction. I didn't hear the Lord speak. But I believe what he's doing right now, especially through the Ekklesia, is going to be like Joseph's coat of many colors. And there's a lot of revelation there that even Dr. Miller can do a better job with. But I believe that he's weaving a tapestry right now in the body of Christ. And it's going to be a mantle is what it's going to be. And it's going to be very powerful with that. All right. Anybody else got something burning? If not, we're going to call it a night. We will get this transcribed. We will get the recordings up. I appreciate all of our participants that are on that are adding your power of agreement. Let us hear from you. Don't quit praying when you get off this call. I think the polls are getting close. Maybe they've closed in California. I don't remember the time right now, but maybe it's eight o'clock out there. But anyway, we're getting close. Continue to pray and pray that heaven's will be done there in California. We need that tipping point. We need that dealt with there. And we believe we're going to continue in prayer about it. We'll be here tomorrow at 222 Eastern Time. Thank you for being on and thank all of you hosts for making time out of your days and responsibility to be so faithful to help us keep this call going forth. God bless you. Good night's rest. And we'll see you tomorrow at 222.
