

## **Triumphant Prayer Call for Righteousness**

### **Tuesday Night Call**

**Date: 2021-09-28**

**Topic: Women's Health Protection Act**

**Clay Nash** [00:00:31] Well, Greetings. It is 9:00 p.m. Eastern time, and we're on the call Tuesday, of course. Appreciate all of those that are coming on. Appreciate our hosts. And it's great tonight to be moving into this that we're going to be talking about. You know, tonight's prayer, We're focusing on the Women's Health Protection Act, which is really a joke; that title that was passed by the House last week. This bill removes restrictions up to birth and born alive abortion survivors if it is passed in the Senate. It also will work to cancel Mississippi's U.S. Supreme Court case, which is now scheduled for December 1. And I want to remind you that on Sunday night, the 28th in Brandon, Mississippi, and Hope Fellowship, we're going to be holding a statewide prayer meeting there. David Hertle, who's on the call tonight, is going to host that there. And then the following Wednesday night, there will be a prayer meeting December 1 in Southaven, Mississippi, at City Gate Church. And that is going to be just prior to our annual NEA conference that we put on. This year the conference was, in prayer, was giving the focus of the suddenly and I don't think that was by chance. I don't think it's chance that this case starts on the day before a conference. But we're asking those that are coming in for that conference to convene a night early and to be there in South Haven with us as we pray. There's a lot going on. Was on an hour and a half, very significant call today. And we're at work and you're at work. And we just appreciate all that you're doing and we appreciate all the hosts that are on tonight and especially all of the participants that are so faithful. I can't say enough. The emails, the things that are being sent to us, we just appreciate your encouragement. We appreciate your support, and we recognize the power of agreement that is coming. We're going to have Dwain Miller on with us as a host tonight. And I'll let him give you an update on Amy at that time. David Hertel you're with us. I'm gonna ask you to open in prayer and you share a little bit about the craziness of this bill. You've got some insight on it. want to hear from you first.

**David Hertel** [00:03:12] Amen. just honored to be agreeing with mighty warriors of the Ecclesia and the legislative body that the Lord is raising up tonight to put a stop to this nonsense. That's a nice thing to call it. But, i'll just to start with prayer: Holy Spirit, come and help us to pray when we know not how to pray. We thank you that you indwell us and you of the Spirit of Truth, and you help us to speak and declare things that you intend to loose angel armies. And to loose miracles, Signs and wonders to convict hearts. You intend to accomplish that which you prompt us to speak and to pray. So we thank you for that tonight that our words are and our decrees are mighty in God. they are actually, when led by the Holy Spirit, the word of God, which does not return void, but accomplishes that for which it's sent. So we thank you, Lord, for letting us be instruments for your use in that. Amen. In Jesus name, we ask that. So the bill we're talking about tonight. I don't have a lot of information on it, just that it was passed Friday by the House along party lines, 218 to 211. One Democrat voted with the Republicans. And it's really sad but it's probably a reaction to the Texas bill that the US Supreme Court didn't---They refused to block it, but it leaves the door open for challenges. And then to also to head off the Mississippi heartbeat

case, which the U.S. Supreme Court will hear in December 1st. So if this bill would pass the Senate, of course, all the state restrictions of any kind, the way I understand it, would be nullified. And so even those that have just clearly are to protect the health of the woman, all of that is up for grabs. And all of that is over with because it all will be regulated by the federal at the federal level. And there is no, basically, no regulations. This bill is more radical than Roe, and it allows for the death of the babies even that survive the abortion. And it also removes the conscious rights of doctors and nurses that refuse to perform abortions. And they can be held liable for that. And so it's a horrible bill. And it's, of course, given a beautiful name, Women's Health Protection Act. And it's just like everything else that we're dealing with. It's a facade and it's fake and it's of the devil. And it brings death and destruction to the unborn and the consequences of it being legalized to our nation, They say there's probably not a chance that it will pass the Senate. They say it's been introduced, it's sponsored by Democrat Connecticut Democrat Richard Blumenthal and it has 47 co-sponsors. They need 60 for it to pass. They're probably not going to get 60 is what they're saying, because there's even two Democrats that are probably not going to support it. They're saying, I keep saying "they're saying" because I'm not leaving any-- I don't want to leave anything up for chance, assume anything is OK. We've seen things go south quickly in a negative sense. And so we want to have this thing covered and legislated according to the Kingdom of Heaven tonight. So, Amen. Well, Clay, you want me to lead out and prayer on that?

**Clay Nash** [00:06:56] Yeah, man. Make some declarations on your heart. You're strong on it. I heard something when you text me the other day. I just...brought this to my attention. I just heard something strong in you about it. I thought you would be good for you to open us up tonight.

**David Hertel** [00:07:09] OK, well, Father, right now we come to you in the name of Jesus. And I'm just going to say a few passages from Psalm 17: that the wicked are out to destroy the unborn. They're out to set that law into place; to codify it to where it cannot be changed and be more difficult to be changed. And they are the mortal enemies of those who are most vulnerable and unable to defend themselves. They've surrounded them, so to speak. They have calloused hearts. They are arrogant to think that they can shed innocent blood and there not be consequences to to their own lives and to their own families and to this nation that they lead. And their eyes are evil. They are like hungry lions looking for the prey to tear. And Lord, we thank you that your mercy is great, though, and you will rise up on behalf of your people. And you will confront them and you will bring them down with your sword, you will rescue the unborn and you will turn back the wicked and by your hand you will save them from such people and such laws. And Lord, you are the God and you are the God who made heaven and earth. And evil people, sinners and unrepentant believers are causing this nation to be pulled out of orbit and to orbit around sin instead of the S-O-N, son of God. And we are calling it back into its proper destiny, back into its proper orbit to be influenced properly, and that these wicked bills be turned back and they will not be able to accomplish their evil agenda and ideologies will not be implanted or planted in this nation. But, Lord, we thank you that we will be vindicated and that these young ones will be protected. And these laws that are passed will continue to increase their protection and turn back the evil that's raised up against them. Father, in the name of

Jesus, we simply played the blood of Jesus over the lives of these innocent children and Lord over our nation. Lord, we would have no hope, except we know your mercy is strong and except we know we have a covenant with you and that we are agreeing with and praying according to the will of God. And you said if we do that, we can have a confidence that our petitions are heard and that we will have them fulfilled. So, Lord in the name of Jesus, we raise up the barrier of the blood against this bill and demand and command and decree: It shall not succeed, but it shall go down and it shall only expose the wicked hearts that raised it up and voted for it. And it will only be a more clarity as to who we are dealing with. No matter what their lips say, what their vote has done has exposed them completely. Lord, let accountability come and Lord, let this thing be destroyed from our government. This law shall not have an ability at all to pass in the Senate. It shall go down in defeat, in Jesus name. We declare it and believe it will be so. Amen.

**Clay Nash** [00:10:59] Amen. And I'm going to call on Tom from Texas next, but I just want to say this. Continue to pray that great conviction come up on those that are pushing this. Now, I fully believe that some of them have seared their conscience with a hot iron. And I'm not sure if the conviction of Holy Spirit can even touch them. But it's still, we need to pray over all them, pray they have encounters with grandchildren, new babies being born, something that can strike a note of emotion to where conviction can get in against this. There is an all out assault against the life of unborn babies. And I'll telling you what's following, it'll be the old, next they are moving in. There's no righteousness in the decisions they're making. Tom, what's in your heart?

**Tom Schlueter** [00:11:55] I was just going to listen tonight, Clay, but when David started speaking and decreeing, I just... I saw something in my spirit that I knew that I needed to decree over this. And I agree, David, I believe that this is nothing but just a evil response to what has happened in Texas with the Heartbeat Bill. And I shouldn't say the heart beat Bill. It is the heartbeat law now. it was signed into law actually back in May, but it went into effect on September 1st. And I was telling Clay and some others this afternoon that there are already close to 4000 babies that have been saved because of that. In just these twenty-eight days or twenty seven days since it went into effect. And so it is saving lives. And I was at a meeting down in Austin over the weekend and there was such exhilaration and such an expression of life that was being declared from very oddly-- well I'm just going to say it-- that very oddly, very strong Baptist people speaking out with the power of the Holy Spirit, proclaiming and decreeing life from Texas into the rest of the nation. And I just felt that I needed to carry that voice into tonight's call and into what is going to be taking place with this vote and the upcoming case in December 1st. Lastly, before I decree, it is going to be a simple decree, is that the Lord has shown us here in Texas and Clay has been with us when the Lord showed us this, that the sword and the ax have been sharpened to do what needed to be cut by the Lord. And so out of a sharpened sword and out of a sharpened ax that is linked together with Louisiana and Mississippi. Based on what happened there at your church, Tim, is I decree that the sword of the Lord and the ax is being wielded by the Lord to cut the lines of death that are trying to be re established in Washington, DC, because the Lord has shown me that that which is taking place in this hour out of Texas and many other states are joining the action now, is that life is now being released into Washington, DC and death is trying to restructure. But we say no, we

cut it off in the name of Jesus. We decree life into Washington, DC. We decree life into the House and into the Senate. We decree life into the Supreme Court. We decree life into the White House. And we say that that which you just spoke Clay, that there will be a movement of the Holy Spirit in such a powerful way that even those that have had their hearts burned by evil, that they will be healed, restored, and their revelation will come to them. The revelation that can only come from the spirit of God that will say, what are we doing? We will not agree with death in Jesus' name.

**Clay Nash** [00:15:18] Amen. Thank you for that, Tom. Ann Tate, good to have you on. We'll just do a double header here from Texas. What's in your heart?

**Ann Tate** [00:15:29] Well, I've been looking at that that they call death, life and life, death. And that is the whole thing that is going on because they're claiming that blood on the altars of the enemy. And the Lord told me that it was a false decree that is being made by the enemy to mimic or try to stop the Lord from the angel of death visiting them and costing them their first born. And we're in a like place where Pharaoh is refusing to let go. And his heart being hardened. So, Lord, right now, I decree, I agree with the decrees that have been made and what is being communicated here and Lord, this is in no way a help for human life for any woman and Lord I ask you to stop the progression of the enemy, just like you stopped {Inaudible}, Lord when he was called on the god of {inaudible} in order to further what he was doing to receive his healing. Lord, I ask you to turn this back in the gate. I just say right now that the enemy will not advance any further. You say, Lord, that they are coming to an end. That Everything that {inaudible} have been stacked up in heaven against them and Lord, I thank you that you will not fail to move. Lord, I ask you for miraculous victory on this. Let not one more baby be lost. Lord, it is an assault against you And your people. And Lord, we can do nothing without you. And we ask you to move in power and strength and stop the advance of the enemy in the name of Jesus. Amen.

**Clay Nash** [00:17:34] Amen. Thank you, Anne, for that. Dwain Miller, you're with us. I know you got things to decree, but give us a outstanding updated report on Amy.

**Dwain Miller** [00:17:48] Thank you Clay. And thank you to all of the thousands of people fasting and praying and everything that's coming. I especially appreciate the instruction that we received through this thread about the spirit of Qeteb, Q-e-t-e-b tied to covid and also apostle Jane Hamon sent a message on this thread also about Rahab or Rahab, some would say, but Rahab being tied to this. And whenever I was able to go in the room and do warfare against those things and break their hold off of her, she immediately turned and began to get better. And so I'm happy to announce to you tonight that she is down to 40 percent oxygen and she's {inaudible} her peep. When the peep gets to five, they can take her off the vent. If she continues to improve because her blood oxygen saturation right now is at 97.1% They did not have to put her on her stomach today. She did well with that and major strides in the last 48 hours since we broke those spiritual off and they will try to wean her off the ventilator in the next couple of days if she continues down this path and she will continue down this path. So thank you for Amy's miracle. I will say that Sunday was our Tabernacles offering and our guest, Dr. Todd Zeiger and Dr. Ron Phillips, challenged our people to sow a seed and call it Amy's Miracle. And our people did it into

the... I'm not going to give you the number, but it's the largest single offering we've ever taken as a memorial before the Lord. So thank you to all. We love you. We appreciate you. And, you know, the attack of this demon, Molek, on this country has been in the forefront of this preacher's ministry all the way back to being eighteen years old as a good Baptist boy. And the one thing that I can tell you about the good Baptist folks, they are fighting every ounce and inch of hell over the subject of abortion, as well as some wonderful Catholic people and people from all groups and walks. And we just declare tonight, Father in the name of Jesus, that Molek and the spirit of Molek is dead. This spirit will not have our children any longer. It has been too long and too much. And Father, we know it's your heart to spare these lives because you knew them before you formed them in their mothers womb. Lord, in your great Providence and Sovereignty, you knew them before you formed them in their mother's womb. And that blows my mind. But it's true. And, Lord, you know that the thousands of people on this call have fought every inch that Satan has laid down to take these babies and we will continue to fight, we will not yield, we will not bow. And Lord, we come into agreement tonight with the heartbeat bill that was originally written by mine and Clay's dear friend, Senator Jason Raport, he is the author of that bill and he has passed that bill on to other states who took it and formed it to fit their language. But Lord, we say, as Chuck Pierce prophesied, as goes Arkansas, so goes America. And out of Arkansas came the heartbeat bill. And we declare and decree in the name of Jesus that these children will be saved, they will be spared. This will not pass the Senate. You will convict Senator Joe Manchin, who has a spiritual background. That's one Democrat that will not support this. And we also decree, I decree tonight that the Supreme Court, even though we know that, Senator, I mean that the chief justice, John Roberts, is evil and he's part of the cabal, the deep state. he's bought and paid for. We just say that he can have no say, and that his word's not enough to overturn and that even some of the liberals on the bench who are still constitutionalists to a point, Lord, I just say that the issue that they bring to bear is states rights from the Constitution. In their mind, Lord, I want them to be convicted about unborn life. But I will take and accept the fact that they will not violate the Constitution and the amendments to our Constitution that give states rights. They will throw this thing out. They will uphold Mississippi's law because the state has a right to say. So, Lord, I pray that would be the emphasis in the Supreme Court, that they can dodge political arrows or whatever they think they're doing by putting the abortion subject on the back burner and just stand up for state's right. I'll take that to save the life of these babies and to uphold the law of Mississippi, the law of Texas and Arkansas and Louisiana and others. So Lord, we just say in the name of Jesus, spirit of Molek you are bound. We break your hold on this nation and on the lie that this is about a woman's choice and right to her body. Lord, we know that's not true because of vaccine mandates and they don't care about the rights of a person's individual body, so, Lord, they can't have it both ways, and we tear it down in the name of Jesus, we bind and break the power of hell off of our unborn children, and we bind and break the power of the spirit of Molek in the name of Yeshua once and for all off this country. May Roe vs. Wade fall and may it fall on the altar of Almighty God and be smashed into a million pieces so that our children are protected and they have life in the name of Jesus.

**Clay Nash** [00:24:08] Yes, we agree with that, Dwain and we rejoice in Amy's good report. Going to get better tomorrow. we just know that the turnaround is here and we are we are

so blessed and so thankful for what God is doing there. All right, Regina, what's in your heart?

**Regina Shank** [00:24:30] Yes, sir. It's so good to be on with everybody tonight. My heart is so much for life in this nation. I was thinking about what we were going to pray about tonight, and I kept thinking about out of Second Chronicles 22, Athaliah. She was so evil. When she found out her son was dead, she began to destroy her grandchildren. She began to destroy the next generation and the one after that. And I began to think about we're not just destroying life when we kill a fetus or a baby that's just been born. We're destroying a whole posterity. We're destroying the purpose of that child, plus any purpose of their children. And so we're cutting off all these lives that God wanted to be in the earth. And I loved what Dwain said, because it does say in Psalms 139:16: in his book, all of our days were written before there was one of them. Every person born into this earth has a purpose. So when we say it's OK to kill them, we're erasing them as well as the purpose that God had for their lives in the earth. And I am so much against this destruction. And I also, you know, we're not stupid as Christians. I mean, come on, this is not about women's health. This is about killing the next generation. It is about the altar of Moleck, as Dwain said. And so I just want to decree into that. Lord, I'm asking now that you would just rip the cover off that thing. it's almost like there's a mask on it and people don't really know what's behind it. But what's behind it is not women's health. What's behind it is a spirit of death, trying to wipe out the next generation and their purposes in the earth. And so, Lord, I cry out to you tonight as a mother, as a grandmother, God, that there would be a reversal of this Roe versus Wade and that this thing that's passed in the House and going to the Senate, Lord or vice versa, Lord, it is not going to happen. And God, we just say, God, we thank you for your divine intervention. Lord, I thank you for your scripture that says in John 14:6, that you are the way, the truth and the life. And Lord, when we destroy life, we are destroying you because you are life and you are the length of our days. And Lord, I'm asking now that this demonic thing that is masking itself, that lying spirit that is hiding the reality of destroying children is going to be exposed. Father, we just say let there be light to uncover this thing. Lord, I also pray for every legislator that is going to have to do something about this bill. Lord, that they will stand up with a backbone. Lord, no longer will they cower. No longer will they be mamby-pamby. But Lord, surely you have some people in the legislature that have backbones and that believe in you and believe in the future of this nation and believe in the life God, that you have brought to us through those children. So, God, we decree today in agreement on this call that that thing will not pass. We will, it will be unmasked to be shown what it is. And Father, you're going to rip the mask off of it and you're going to have people stand up and say it's not happening. Lord, I also go beyond that and say this thing going on in Mississippi, Lord, that it will pass and there will be a ban on abortion. And Father, we also say that it's going to be a domino effect and Roe versus Wade in this nation will be overthrown. Lord, as a grandmother, as a mother, I just say let the children live. Lord, I pray for them that no longer will we throw them on an altar of a false God. No longer will we say, I don't want that kid because it's inconvenient. Lord, no longer would we sacrifice a life because of inconvenience. Father, how selfish we are. Lord, I pray, Father that you would raise up even now, on this call of intercessors who would cry out to your father with a cry as even as Rachel was weeping over her children. Lord, let it be that deep within us, God, that we care that much about the

lives that are being destroyed by this thing. Lord, we cry out, God, Father, may we travail before heaven, may we cry out before heaven. So this thing is no longer an abomination in our nation. So, Father, we thank you for the agreement on this call. And we thank you, Father, that you are listening to the prayers and your bringing forth your answer for America. I agree with every prayer that's been prayed, every decree that's been made for this thing to be removed from our nation. we speak life. We choose life. And we know life is you, Lord Jesus. We choose you. We choose your ways, and we value what you value, Lord, and we will not value the things of this world. So, Lord, we thank you, God, that you're going to reverse this thing and we're going to see life exalted in America once again. In Jesus name. Amen.

**Clay Nash** [00:30:26] Amen. we agree with that. brother, Jim Hodges, what have you got in your heart tonight, sir?

**Jim Hodges** [00:30:35] Hey Clay and team. Excited tonight. I just came off watching Dutch and Mario and Lance on Flashpoint, and now I'm on the Ekklesia call. I've got to believe that the satellites and circling the planet Earth are sizzling tonight. That's all I want to say. There's so much electricity in the air that's of God. And so I just want to rejoice in that. Let me just make a simple observation before we make a couple of decrees. Most of us might want to be reminded for the sake of those who are caught up still in fake science rather than true science. I mean, what we're decreeing tonight concerning life and this whole abortion and life issue is simply the reality of life from God and life for us in the image of God. And this is such a foundational lynchpin issue as we progress and win on this front, this is going to be the thing that blows the doors open or shall I say the gates of hell open concerning victory on all the other expressions of darkness in the culture. So what I go back to is jus a simple word that the word for a baby, Brephos, in the Geek New Testament. It clearly defines a baby in the womb, in the womb, like John the Baptistizer inthe womb of Elizabeth, the baby is in that womb that leaped at Mary's greeting, that's a baby. That's the Greek word, brephos. And then when Jesus is born, come on, at Bethlehem and they laid the baby in the manger, it's the same word. So that's true science. We're given this lie. That life in the womb is not really a life. It's just something that {inaudible} a woman's body...uh, I won't get on a rant here. But we're declaring not only life but we're declaring true science. And the Heartbeat Bill, I think is at the core of the battle. Because we have the sonogram technology, which, of course, has helped to document life in the womb at early stages. Now, in six weeks, we've got a heartbeat. We've got a pulse. So by every definition, that child's life so early, that the pro-Abortionists can't handle it. I can just hear them shrieking and screaming. I can hear demons screaming. Oh, they've found out that heartbeat comes at six weeks in the womb to the baby. So we prayed Ohio has a heartbeat bill. Arkansas, Louisiana, Texas, Mississippi will and it will go across the nation as people get educated, not only influenced by our prayers, intercessions and declarations, but they get educated about the true science that documents life in the name of Jesus. So tonight, Lord, we say: we decree life, we choose life, we preach life, we support life. And we say that life has overcome every force of death through the work of Yeshua at Calvary two thousand years ago, who then rose from the dead in the same body He was crucified with. victorious over every evil principality, made

an open show of every single one of them, and they will hang their heads in lament and acknowledge that Jesus, who is life, light and Lord has prevailed. Amen.

**Clay Nash** [00:34:28] Amen, brother. Appreciate that. And we come in agreement with every bit of that, we just declare that people are going to recognize that these are life. These are real children in the womb. And we thank you, Father. It's not about a woman's health. It's about a woman's choice. So we declare that tonight., in Yeshua's name. Amen. Timothy, there in Louisiana or what's in your heart.

**Tim Cascadden** [00:35:04] Thank you, Clay, and God bless everybody on the call, the hosts as well, and I do want to just put out a prayer requests from everybody to continue to pray, obviously, on this issue for especially the surrounding states around Texas, all the connected states. Us being one of them, Louisiana, Oklahoma, New Mexico and so on, because we are seeing a major influx of Texas girls coming to our state now and getting abortions in our state. So we're having an uptick because of that. And that's not Texas's fault. What we need is all these states to have the same heartbeat bill. And as Jim just said, you know, it's most of it's in legislation and we just want to make a push tonight, especially that it would go and these girls wouldn't escape Texas just to go find another place to do it. And it's all about convenience. And so we need to stand on that issue. And then, also let's pray especially for the false prophetic that's coming forth from our politicians right now and even some from the church. And we're seeing that, I know Nancy Pelosi, when she introduced this bill, she said that God gives free will to honor our responsibilities when she introduced the bill. Fortunately, her archbishop decreed that it was nothing short of child sacrifice. And I thought that was good. I keep seeing these politicians now becoming... Trying to become prophetesses and prophets and they're saying they are using God's name. We saw that in reference to the vaccine last week when Reverend Jaffrey's from Texas said there's no reason to have a religious exemption. And and then you see the governor from New York say that God says we should take this vax. And now she's saying this Sunday that this was a gift from Jesus and that we, the people in that church, a megachurch in New York, should become her apostles and go out and share the good news of the vax. And so now we're seeing this intermingling between the church and politics. And we must be careful that we make our decrees from the heart of God, not from an intellectual point of view, and especially on this issue. And when you have a Catholic saying this and Pelosi saying what she said, that God honors this and we know He does not. And we want to say, one more thing I'll say, Bob Jones used to teach us that when you vote, you vote judgment on your life. And I believe these congressmen and women voted judgment on their own lives when they voted, the 218, that voted the way they did. And it's not our job to do vengeance. The Lord takes care of that. We want to pray, like you said earlier, that they would have an encounter with the Lord and recognize what they did. I always pray for the dream that Pilot's wife had [chuckle]. It would fall upon them and the terror would hit them. And so I want to pray into those issues tonight and everybody will agree with us. Father, I pray for the surrounding states around Texas right now, Lord, those states; New Mexico and Colorado, Oklahoma, Louisiana, even Arkansas. I pray that, Lord, these heartbeat bills that are in legislation, are in movement, Lord, that there will be a progression right now to a point that, Father, we would surround this area and in little by little we would make these decrees across the entire United States. and

Lord let it start now in the name of Jesus, we make that declaration. And Father, we ask for the true prophetic to have a voice. And Father, we repent for any Christ leader who has who has spoken, supposedly, your words, and Lord, they were just soulish, intellectual words. And we ask you to forgive our leaders for that and Lord, we ask for the true prophetic apostolic to come from your church right now. And Lord that we would say what you're saying, what your heart is saying concerning especially this abortion issue. Lord, you love Life. We thank you, Father, for the 211 congress men and women who voted properly. And I ask for an exponential blessing on their life. I pray that Favor will visit their houses. Favor will visit their campaigns as they move forward. Lord, and I pray for those that Father that did not vote life, that Lord they'd have a great visitation from you and Lord, if their hearts are open to truth, I pray that the truth would prevail and we do ask Father for dreams and visions. Lord, you speak to Muslims, you can speak to our Congress and we ask you father to go supernaturally and Lord, I pray for the spirit of conviction, Lord, to be near them right now, Lord. and Lord, that you would just be graceful for that-- gracious to that, in the name of Jesus. And thank you for these prayer warriors. Encourage them, Father tonight as they stay on the wall concerning this very important issue, in the name of Jesus. Amen.

**Clay Nash** [00:40:44] Amen. Thank you, Timothy. And someone just text me and reminded me, you know, Georgia has passed a heart beat bill. I think a couple of sessions ago they said. so we're thankful for that and we believe that this thing is building. We believe it's coming to critical mass and we believe we're going to see greater, greater things come as we move forth with that. Pat, you're on with this. I think you're next. What's in your heart?

**Pat McManus** [00:41:16] Thank you, Clay, for the opportunity, and I agree with all the decrees and the prayers that have been released tonight and the thought came to mind while somebody earlier was talking about Caleb going up and reclaiming the mountain. And then not only did he reclaim the mountain, as we know what the scripture says, but he also activated the next generation to go alongside and begin to move as well. So I just wanted to decree that into the Senate, that there would be the Caleb's that would stand strong in the power and the purpose of the Lord that would truly take down this giant that the ungodly governance is trying to establish. And not only will the Caleb's rise, but also the generations, the next generations will come alongside and begin to stand and for the purpose of dismantling this fraudulent bill that continues to try to bring demise on our land and Father, let the dominoes begin to fall as the progressional expression of the kingdom of God to reclaim, father life in our nation, not death, but life. So, Father, we thank you that the dominoes are moving. There's aligned identity coming and that Father, the Calebs are arising to stand to reclaim life for our nation, not death, but life. So, Father, we thank you for the repositioning of those that will stand for truth, righteousness and justice upon our nation. And father, we thank you for what you're about to do in Jesus name. Amen and Amen.

**Clay Nash** [00:42:53] Amen. Thank you for that. Amen. you know, we must continue to press this, I want to remind you that, you know, as this case in Mississippi in December goes before the Supreme Court, we're calling for a statewide prayer meeting on the 28th in

Brandon, Mississippi at Hope Fellowship. And then on the Wednesday night before we kick off our annual meeting that we call The Suddenly. it's a regional NEI Network Ekklesia International. And Timothy will be there speaking, Dutch will be there and many other people that's on this call will be there. I want to remind you and on that Wednesday night, December One, there will be a prayer meeting that will be hosted at City Gate there in Southaven, Mississippi, where the conference will begin the next night. But anyway, we need to remember that and keep pressing in. We need this case in Mississippi to bring another blow. There is an imploding, a shattering, just tearing down of this, little by little. And we're going to see this suddenly come. Greg Hood, You're there in Mississippi. What's in your heart?

**Greg Hood** [00:44:21] Hey, Clay. Thank you, man, for this time. I'm probably struggling like other people. I probably wouldn't be good for me to give what's in my heart tonight concerning this situation. I'm trying to find God's heart on it. It's just really stirs me up. Whenever innocent blood has been shed and those who cannot protect themselves are taken advantage of and their lives are taken. But I know that as I was praying into this this afternoon, that I felt the Lord very strongly within my heart begin to say that we as the Ekklesia need to slap the hand of the government. And I said, "what does that mean, Lord?" And the Lord said, "they are overreaching and they're putting their hand in the places it does not belong. And the Ekklesia has the responsibility to slap their hands." And I can remember when I would put my hands close to things when I was a boy that they didn't need to go to. My mother would pop my hand and I would learn to pull it back and keep it off of those things it didn't need to be on. I felt that very strongly tonight. A strong word actually from the Lord, on this cause I'm just thinking about this. There's just all kinds of emotions going on inside me and our state, Mississippi, has the opportunity to make a difference that could actually help pivot, turn Roe versus Wade. But I think there is a Holy boldness and also a mama bear tenacity and protection rising up within the Ekklesia. There's not going to allow the government's hand to put itself in places it doesn't belong. So tonight, Father, I just thank you for these things you drop in our hearts. Lord, I thank you for all of these words that have come tonight and for all of the declarations that have been decreed. Father, we are in agreement. Father, thank you tonight. God, that as we come into agreement tonight, your word says that one will put a thousand to flight but two will put ten. Lord, the Hundreds and Lord, even the thousands, Lord, that may be on this call tonight, we have an opportunity to move our government back into a position that it belongs to. So we ask tonight, Father, that you would baptize us with that holy boldness that we need as we're just moving through our days and doing the things that we need and Holy Spirit prompting us, we would begin to slap the government's hand back, father, in the spirit, and we would begin to take authority over these things. And we do that tonight. We've done it tonight. And I just decree again tonight, that our government, the United States government, executive branch, the judicial branch and the legislative branch, you will not put your hand where it does not belong. We slap your hand tonight and we decree that you have reached too far and your overreach violates the law of God. So we slap the hand tonight that is overreached and we declare, you will not touch this. You will not try to profane this and bring it into your grip to where you can control it. We decree tonight that life started with God, it belongs with God, when he breathed his breath in to Adam, putting his nostrils to Adam's nostrils, breath entered mankind. And, Lord, we know your word

tonight tells us that life starts with you and that life is a covenant with you and that you have promised us life, so Father, we pull on that tonight. We lean into that tonight, father, as the Ekklesia, we decree tonight, God, that the power the government thinks it has is not more powerful than your Ekklesia in the earth. We know tonight, Father, that the United States government and these law makers and judges and executive branch, father, they are not your evil men. They're not an equal to you in any capacity. So, Father, we thank you tonight that heaven is slapping the hand and tonight, God their overreach stops. They will not take the sovereignty of the states. They will not take away from the states our ability to live in and out of our Constitution. Father, we declare tonight that Lord, as the nation begins to see this greater overreach from our government, seats will begin to be changed. The unrighteous are being unseated and the righteous are coming into seats. So, Father, we thank you for this tonight. We thank you, Lord, that as we stand together as Your Ekklesia, the government, the political spirit, the religious spirit within our nation has no power to reach beyond what you've given it. Lord, You've even told oceans where to stop. We thank you tonight, God, you have set boundaries and you have set limits to government in the Earth. And tonight we declare those boundaries have been breached and we slap their hand And we decree tonight: no more! in Jesus name. It stops here tonight in Jesus Name. So, Father, tonight we release Life, Your Life, life more abundantly over this nation and through this nation, Lord God. And Lord, America will be a place of life. America will be a place known around the world where the life of God, the breath of God, the heart of God is alive and well. And Father, we decree tonight from America, your breath of life is being blown to the nations to bring our nations, Lord, into alignment with the covenant of life in Jesus name. Amen.

**Clay Nash** [00:51:02] Amen. Any of the hosts that's on have anything additional to say or is there any host on that I'm not aware of?

**Tom Schlueter** [00:51:17] Great call, Clay.

**Clay Nash** [00:51:17] Go ahead, Tom.

**Tom Schlueter** [00:51:21] I just said, "a great call". I guess I do have to say something, just, I posted it on our signal thread there as a response to Tim, what he was saying. And Tim, I just want to let you know that Texas is aware of that. And we are praying so desperately for the protection of life to all those states that surround us, because we know that some are fleeing to do that in other states. And so we just say, no, let that door close. We take the authority of our keys and lock those doors and say, "no. Women, you need to stay here and you need to face life and you need to release life from your womb, in Jesus' name."

**Clay Nash** [00:52:05] Amen. Thank you for that, Tom. Well, we'll be back on here tomorrow at 2:22. I want to remind you that beginning this Thursday night, the 30th, we're kicking off The Vision. This is a meeting, it'll be Thursday night there, Friday morning. Friday night, we're going to have Dwain Miller speaking, we're going to have Dutch Sheets in. We got other speakers that will be speaking and then we're going to finish up on Saturday as 5:00 is Dr. Miller speaks on immersion. And we're going to be holding a time

of baptizing or immersing people forward into their inheritance. And we're also going to be anointing with oil and commissioning people for such a time as now. So be in prayer. As I've asked you a couple of times on here, pray that... They are predicting some rain. Come in. We got a great tent, it's got side walls, the temperature is going to be good, but we've got people coming from California, Idaho, Oregon, Texas, Maine. We're here on the property. We're going to be dedicating that five acres that we bought that we called the Eagle's Nest. So anyway, we'll be back here tomorrow at 2:22 Eastern Time. And it was a great call tonight. Our hosts contributed so well right out of the spirit. And we believe that this call tonight is not going to go anywhere in the Senate. And we declare that Mississippi will be heard before the Supreme Court justices and as they're heard, it's going to continue the tearing down, the disintegration of Roe vs. Wade. So stand strong, cover those states surrounding Texas and be thankful. Someone just text me that's on the call all the time, said South Carolina passed a heartbeat bill, but a judge overruled it at this point, turned it round. I want to tell you, we believe that it's going to come back even for South Carolina and other states. God bless you. We will...The recording will be posted. The more transcript will come out by Thursday. It was a great call. I appreciate so much, all of you being on the call and what you contributed and especially the power of agreement that the participants bring. Blessings on everyone.
