

Prayer Call April 28, 2023 - Pennsylvania

Clay Nash: Greetings. The day is another 2:22 day, and we're here on the wall. We've been praying now since February the 20th for all 50 states. We did so in the order of what Chuck Pierce and Dutch Sheets did back in the 50 state tour in 2003-04. Today we're praying for the state of Pennsylvania, and we will finish all 50 states. We've been announcing this that all the calls have been recorded. We get them up as soon as we can, and all the calls over all 50 states are being transcribed. In about 24-48 hours we try to have the transcription up so you can go back and download that and do a lot of warring with it. Remember that we just convened and held the first Josiah Company Convocation in Conway, AR. Very, very significant time — the word of the Lord came that we're to continue to host these but to move them around the nation. There were many declarations and decrees there. If you'd like to purchase the videos of the entire convocation, go to claynash.org. That's also where the recordings and transcriptions are. claynash.org — you'll go to the store. You can purchase these and download them and every bit of the money for the purchase price is going to go into the war chest so that we can secure facilities and host these Josiah Company Convocations across the United States if Holy Spirit directs us. So go there, be a part of it. We'll go back to prayer next Monday at 2:22 again. We're just going to follow the Spirit for a week and pray, and then on the following week beginning on May 8 we're going to have our hosts that were there at Conway at the Convocation, and we're going to pull out key bullet points and focus that came during that time, and we're going to be discussing them, declaring and decreeing into them for the future — very, very important for us to break this down. On Saturday of last week we prayed for all 50 states then. It took almost 4 and a half hours. That is now up, that 4 and a half hours of prayer for all 50 states is up on my website, and you can go there and you can download it, you can listen to it there.

So we're here. Some great guests on today from Pennsylvania. I want to thank Abby Abildness for putting this together. Just an incredible job. Abby I've just enjoyed talking with you; I appreciate your spirit. We're going to begin today with Regina Shank. She's up in Missouri. She's been part of this call for probably 5 years now, and she has been given a prophetic word for the state of Pennsylvania. So we're going to call on you first, Regina, to tell us what God put in your heart.

Regina Shank: Yes, thank you so much, Clay. I happen to be in St. Louis today and yesterday and tomorrow but I wanted to get on the call today. I did get a word for Pennsylvania. This is what I heard Psalm 45:1. "My heart is overflowing with a good theme; I recite my composition concerning the King; My tongue is the pen of a ready writer," referring to William Penn. Then I heard this: I will shake your state, I will shake your state. Even as the Quakers shook, I will shake you and shake out your enemies.

Pennsylvania you are called to speak, write, decree, declare, intercede, and proclaim the glory of the name of the Lord. Get up on a high mountain and decree, "Our God reigns." Exalt His name; lift a banner for the nations. From Pennsylvania, your young will go forth to share the gospel to the darkest places of the earth. Do not fear. "You and they are the light of the world."

You are a sending state. Train them up and send them out. Establish places of healing; places of instruction; places of safety where hearts can be shared without fear. Get them ready for their call.

A new group of young intercessors is being birthed in Pennsylvania. Steward them; encourage them; and allow them to be in the same room with worship, with prayer, and allow them to soak in the anointing.

Pray and decree over your legislators; influence them through relationship, prayer, and encouragement. There is a shift coming, a shift in leadership in your state. I will put down one and exalt another. Cry out for my will, for Divine intervention, for open doors and opportunities to bring forth my Word and direction.

Pennsylvania you have been killing your deliverers. You must wipe out abortion. Some who are to be raised up to send are being destroyed in the womb. Your purpose is being hindered. I decree life over you and the awareness that I am releasing my purposes to you and through you, but you must allow my deliverers to be born. Arise, Pennsylvania, to your purpose. So Lord, we decree over Pennsylvania abortion will be wiped out, and we decree over Pennsylvania that you will shake the state and shake out that evil and the enemies of your purpose. Lord, we decree over that state that they will be sending out young ones and older ones into places that are dark and they will bring the light of the gospel of Jesus Christ. Lord, we thank you for their intercession already and their intercessors, and we encourage them as well. And, Father, I thank you that as they fight this battle, they are fighting with your help and with angelic intervention. So Lord, we thank you for Pennsylvania, and we decree Pennsylvania will come forth and will wipe out abortion and will send those deliverers into the nations of the world, so that every person will know the gospel of Jesus Christ. Pennsylvania, rise up. In Jesus' Name.

Clay Nash: All right, Regina, thank you for that word. We come into agreement, and we're going to decree and declare with it and war into the future. Pat McManus, there in Illinois, what has God given you?

Pat McManus: Thank you, Clay. I just kept on hearing when I read into the 50-state book and just looking at the "Virtue, Liberty" and the things that were declared there — I heard the Lord say I am releasing Pennsylvania and I am restoring Pennsylvania to its foundational place. A new alignment is being heard. As the bell is being rung and a true sound of liberty is coming forth, I'm repositioning those in the land to stand on the truth of My word. Watch and see the foundations shake as the bell that is being rung to release My glory will be seen and heard. Prepare for advancement. Prepare for movement. Watch and see what I'm about to do. Prepare for a new order of my power that will be revealed. And then Phil.4:8: Finally, brethren, whatsoever things are true, whatsoever things are noble, whatsoever things are just, whatsoever things are pure, whatsoever things are lovely, whatsoever things are of good report; if there is any virtue and there is anything praiseworthy, meditate

upon these things. Father, we thank you that the Bell of Liberty is being rung again in Pennsylvania, that there is a true sound of reformation coming forth as a realigning, as Regina prayed, the shaking to come, a shaking that will cause the bell to be rung and the glory to be revealed. Father, prepare the hearts of those in Pennsylvania to hear the sound of movement, and advance in, and see the glory revealed, the power made known, and the greatness of your name be heard. We thank you, Father, for it; we give you honor and praise, in Jesus' name. Amen and amen.

Clay Nash: All right, Pat, thank you for that. And the Lord has given me a word that has alignment in it. He said Pennsylvania, truly you are the key, for even as you were the last of the 50 state tour and the last of the 50 state prayer, you were the first of the intercessors for America. The Lord said I'm about to insert you because alignment has come, and that which I will unlock is because you have already received your white stone with a name written on it only the Ekklesia of Pennsylvania know. For I would say unto you, look up says the Lord, look up and as you look up you will see the provision that is coming to Pennsylvania in a manner that will cause hearts to be filled with joy. We no longer — for the days of weeping in Pennsylvania are over, for there will come an emancipation proclamation out of Pennsylvania that will shake the nation, says the Lord. For in the signing of a new paper there in Pennsylvania, that new paper will release the liberty, the integrity and the justice which will prevail in this nation. So get ready. The heavens are opening, and resources are beginning to be poured out, for there is a location in your state where providence was spoken over George Washington, the father of this nation. It was spoken about how he had been protected in a battle and how even though horses were shot out from under him, bullets went through his coat, he could not be killed. And I would say unto you, Pennsylvania, that place of providence is still there. And because providence is there, you will bring providence to this nation, for I will say this nation because of what will take place in the future in Pennsylvania will not die. It will be reconstituted, and the fervor of the passion of the Lord will prevail, and it will seal, for truly out of Pennsylvania will become a roar of authority, and that roar will strike fear of the hearts of the states of this nation and the people that are compromising. Get ready, says the Lord, for I am about to release another level of the outpouring of my Spirit upon Pennsylvania that will cause it to not only be positioned and postured, but it will cause it to have a hearing ear for Pennsylvania but also for the nation. Father, I just declare into this word, and I declare that key is now aligned, and that stone is now in hand, and the Ekklesia there know their new name that you've given them that's written upon this white stone, and I declare that that new name seals the identity of the Ekklesia and the praying church in Pennsylvania. We just declare heaven open over Pennsylvania, and we declare resources being released on a whole new level. And we do so in Yeshua's name. Amen.

Well, we're honored today to have Abby Abildness on with us. And Abby, I know a lot about you, but I'm not going to introduce you. You lead a lot of things in the state; you're very well connected. Thank you for being on the call. I'm going to turn the call over to you to introduce your guests at this time.

Abby Abildness: Thank you, Clay. Thank you, God. Thank you, all of you leaders that have been praying for PA to release us into our destiny as a governmental shift state. God news is good news. It's very encouraging to our officials on the call and many of our intercessors on the call as well.

Pennsylvania is united by a prophetic declaration. I bet you don't have many states that have a prophecy from their founder. William Penn, his prophecy is written in large mosaic tile inside our capitol dome, and the prophecy was from 1681 when he got the land grant and then the writings that he did from them are what the destiny of Pennsylvania is still coming forth. We wrote a decree from this that has his founding words in it, and I just want to read that as we open. We, the Commonwealth of Pennsylvania, birthed by Almighty God, through the vision given to our founder, William Penn, of a government that fosters peace among the citizens, we declare a governmental shift and release a spiritual realignment starting from the grassroots to create a safe haven for peace and unity in Pennsylvania. From our position as the keystone state, we call the nation to return to the first frame of government established by Penn, who declared (and here's his prophecy): My God will make it the holy seed of a nation, for the nations want a precedent that we would do the thing that is wise and just. We decree the awakening of our people to the voice of God in this hour, that they would hear and obey from the heart, that we might continue to walk in and enjoy the divine blessings of a nation whose God is the Lord. Penn's precedent, his governmental precedent for the nation, developed a principle of governance that would enable people that have all different backgrounds to live together peaceably in the spirit of unity where justice for all would prevail. He left England at a time in 1681 when there was so much corruption and there was so much going against the people of God that he got the land grant territory from King Charles II. He wanted out of there, King Charles wanted him out of there, but it was a time in history when governmental authorities resorted to abuse and bloodshed in order to establish themselves, and where society hadn't found a reason to accommodate the differences, which sounds like our time today. Penn founded the Commonwealth to be a safe haven for people of religious freedom, and he intended his holy seed precedent to bring hope for reversing the trajectory of tyranny and abuse of power, and he wanted brotherly love to heal trauma and division and establish healthy communities free of violence and bloodshed. And we pray the release of the Father God's heart for healing of Pennsylvania and the people today. In his preamble he said man was created to have dominion in the earth, but it was because of the evildoers that he founded the law and the branches of government, and that was because of the transgression. And he said he was founding it because government is the means of justice, and justice is the means of peace. So he knew that the law — we didn't need it for the righteous man who already had God in his heart. He meant it to protect all people from those that didn't have that in their heart.

So I proclaim over Pennsylvania, Father God, the enemy of our souls is conspiring to take over Pennsylvania leadership. We release the spirit of Elijah to deliver us from and counter this evil intent. Father God, thank you for the righteous alliances growing in Pennsylvania to release the holy seed of a nation. We decree and declare that righteous legislators who have God's heart will rise up with constituent support, and only

legislative actions will pass that align with God's holy purposes. We thank you, Lord, for the Pennsylvania Freedom Caucus. We decree and declare heavenly strategy and unity and a hedge of protection over the Freedom Caucus leaders. Father God, you declared that we know the truth and the truth shall set us free, and we declare deceptions be revealed and truth be good news to rally the citizens, including those right wing watchers that are being drawn to watch this grassroots movement and try to stop it. We worship you, Lord, we trust you. You will fight and triumph for us in the battle. Thank you, God. You render victory over the enemy's ineffectual attempts at trying to stop this holy seed. And so our Pennsylvania state flag reveals our motto, which you heard: Virtue, Liberty and Independence. I don't know another state that has virtue as its foundation. We proclaim that the governmental shift embossed on the Liberty Bell, which was cast 50 years (the jubilee year) after Penn's first charter of liberty, and it proclaimed, and we proclaim today — "Liberty throughout all the land and to all the inhabitants thereof".

So we have on this call today those people that are really active officials at our capital who are representing God unashamedly, and I proclaim wisdom and protection over these leaders for divine breakthrough of our state. We'll start with Senator Doug Mastriano, who ran for governor, inspired a statewide grassroots movement across Pennsylvania to walk as free people. It was so big the people really thought they won, but they discovered maybe it's true as Stalin's words said, it's not the people who vote that count; it's the people who count the votes. Senator Mastriano.

Senator Doug Mastriano: Thank you for having us on. I'm joined by my wife Rebbie, whose relatives settled into the area that I represent now 250 years ago. It is a strange time. Our motto of our movement of course is restoring freedom. If Jesus sets you free, you are free indeed. It's all about freedom. John 8:36. As Abby said, we are the seed of a nation and God has blessed us with a special place. As the keystone state we hold the keys for this nation, and the light of liberty was lit in Philadelphia of course in 1776 where all the founding fathers came together, and no other place can claim such an honored position. And then of course the cause of freedom was under assault by darkness and the evil of slavery. Pennsylvania was the first colony in the fledgling nation to ban slavery, giving another blessing upon the nation. And then of course the Civil War was the new birth of freedom in my own district in Gettysburg, where Abraham Lincoln spoke those words, and he reminded us that it's up to us the living to be dedicated to this unfinished work. And the unfinished work of course is maintaining this Republic, so that all men and women can walk as free people. Even in the dark days of 9/11 Pennsylvania was attacked with Flight 93 crashing in Somerset County. And so we're looking to God to restore the promise, the prophecy, the prophetic words spoken by William Penn and codified by our founding fathers and by the blood of patriots in 1863. I'm going to ask Rebbie to say the prayer.

Rebbie Mastriano: On a note of personal history before I pray, I know as far back as I believe my 6th or 7th great-grandparents, that helped settle this particular area of Pennsylvania, believed wholeheartedly in the Lord God Almighty for their salvation, and they witnessed to the Indians that were around them here. It even came about during

the French and Indian War when that happened that it spared one of the families' lives in having done that outreach for about a decade to them. And so we know that God has heard their prayers as well as he hears ours. Heavenly Father, we come before you. We humble ourselves to pray, Lord, that you would give the strength and the might for those who need yet to stand, yet to answer the call to stand up and to join in the spiritual warfare battle, whether that be in intercession, whether that be stepping into local government, into state government. We ask, Lord, that you would call your people and that your people would answer the call. Father, we know that you are doing a work, and we see, Lord, that the wickedness is much, but we ask that you would demolish the walls of the enemy and that we would build up the righteous walls, Lord, that you intend for Pennsylvania, in the foundation of this very state. Lord, we call upon you and we ask you to release your power. We ask you to release the angels that are I believe like Daniel are being sent forth but may be delayed in the heavenlies in a battle, and we ask, Lord, that we would be diligent in praying them forth to be able to bring about truth, righteousness and justice for you, Lord. And we ask that we would continue to prepare our hearts and our minds to be ready for when you tell us to step into the next part that you have, stepping up into what you have for us as individuals but also as a state. And we thank you for the unity that you have brought as we have traveled these 67 counties, more than twice each for some of them, and we saw your people being called forth as never seen before. And so we know, Lord, that you are stirring hearts, that you are preparing your church, and I pray, Father, for the strength for the saints in this season, in Jesus' name.

Abby Abildness: Amen. And next Representative Stephanie Borowicz. She's like a lioness who speaks truth with holy boldness no matter the opposition that comes against her, and there's plenty of that. She's known for a Jesus prayer that she prayed to open the House of Representatives that went viral because it was politically prohibited to say the name of Jesus, but that did not stop her saying it multiple times. Representative Borowicz.

Representative Stephanie Borowicz: Thanks, Abby. It's an honor to be on. I thank you guys. I've been writing down what others have been saying, prophesying over our state, because as Rebbie said, it's dark right now. The State House flipped to Democrat, and we're fighting several things that are just pure evil, where doctors would be forced to perform gender mutilation surgeries and awful things in an "equality" bill, just shoving that down our throats. But it's so encouraging to hear the words of encouragement from God's Word and what you guys are saying because we are the keystone state. I'm out here; Doug and Rebbie are kind of in Gettysburg and I'm out here in the frontier land, I'm in the district where they actually rode with their own declaration out here in the frontier to give that to the people in Philadelphia that we wanted to be free, our own declaration that was written out here, the Tiadaghton Elm. I'm out here representing the frontier in the good old rural parts of Pennsylvania. I'm a stay-at-home mom, I happened to run for office 4 years ago and God placed me there at a specific time and my husband's a pastor out here. And we want to proclaim all the things that you guys are saying. I wrote down a shaking in Pennsylvania. I definitely feel that, that the Lord right now is shaking us. I've never seen for once, in my 4 years

I've been in, the Republican caucus actually be strong. I've heard men actually standing up saying I'm willing to lay down this job to fight this bill. It's about time. And I'm seeing some of that shaking, waking people up. So I'm going to pray that. The bell ringing, proclaiming liberty throughout the land — I feel like that is significant. Even Sean Feucht had a great song he sang when he was in Philadelphia. All the history and heritage of Pennsylvania is so vital from this state; like Abby said we're the seed of a nation and we're to hold the line, push back and then there's a shaking and a returning back, even though we can't see it right now — that's what faith is, is believing even though we can't see it right now. And number one is that we will be a state that will uphold life, I feel like that is that declaration, that's that emancipation. I have that on my wall that a man I believe from Wyoming sent me declaring basically the Gettysburg Address in the form of pro-life for the children here. We lose 30,000 a year in Pennsylvania of our children. That's huge for Pennsylvania and although we can't see it, since we don't have a Governor Mastriano right now we can't see it, but we're going to speak things that aren't as though they are. Thank you guys. And the last thing I want to emphasize I felt as important when I was on this call is the churches in Pennsylvania that God opens their eyes. I'm starting to see a few start to speak, but it is very hard to get some of the church to stand, and so I just want to pray, proclaim those things, what God says and for his church in Pennsylvania. Thank you guys so much. I'm so encouraged by being on the call.

So let's pray. Lord, I thank you, Jesus, for bringing us together. We give you praise and glory and we thank you that in Pennsylvania we're going to start to see as we stand, as we speak, our enemies literally flee in 7 different directions, Father God. And so in the name of Jesus I thank you, God, that you're shaking us, Lord Jesus. You're beginning things over, anew in Pennsylvania, back to returning us to liberty and freedom again, God. Forgive us, Jesus, for taking away from your precepts, God, all the foundational principles that William Penn instituted here in Pennsylvania. And God, forgive us the biblical foundation that we've walked away from, our selfishness, our ease, Lord God, our comfort. Father, forgive us; Jesus, forgive me, God use us, strengthen our hands, God, like Abby said with Daniel, Lord Jesus, peace, and it says be strong, be strong. And so God we just speak that over Pennsylvania — the legislature, the state senators, Father God, everyone that you have placed, I pray that you would open their eyes to see the evil, Lord Jesus, and ears to hear; even as I have to speak on Monday that I am not stopped from speaking your words on that State House floor, Father, in the name of Jesus. And I pray that it literally devours the plan of the enemy with this bill and this legislation. And so we thank you, we proclaim that, Father — liberty again, proclaiming liberty throughout all the land, starting in Pennsylvania, in our churches, in the name of Jesus. It is your church, Father, and I pray that the shaking in the churches in Pennsylvania that they'll go outside the walls of the buildings that we've built and erected here, these big buildings. I pray, Father, that your church will walk outside of those walls and become the body of Christ, teaching, equipping, training the saints and returning back, giving them the will to speak for your truth, defending little children in the womb and outside of the womb — what they're doing and speaking, Lord. So we thank you, we proclaim these things in the powerful and mighty name of Jesus Christ. Amen.

Abby Abildness: Amen. We know that Monday prayer — you just called them, the party, to gather in prayer in the back of the House before they go into the House for some very significant bills. And they're not all Christians but you don't care; you called them all, and I pray success on that prayer that happens before the bills are decided on. Next is Representative Dave Zimmerman. He really carries Penn's peacemaker heart. He's just gracious in negotiating difficult battles of party agendas. He serves on the Freedom Caucus coalition, the Healthcare Committee and has longtime state expertise in agriculture in Pennsylvania. Representative Zimmerman.

Representative Dave Zimmerman: Thanks, Abby and so good to be on with everyone. So humbling to hear all the prayers here today from so many people and groups that are praying for me, praying for all the legislators — very humbling. I want to talk briefly about William Penn. What is so interesting and ironic is that Penn was really very instrumental in helping to put together the government here in Pennsylvania and really our nation's first government. The one that might have been the head of it briefly would have been the Mayflower Compact, which was a very different type of government, but what happened in Pennsylvania was really the first government in the nation, and what's so interesting is how the U.S. government was modeled after what was put together here in Pennsylvania. And Penn had so much influence on that. A couple of other things on Penn — for example, he would have invited my ancestors, which are in this country almost 300 years, and I'm personally 10th-generation, so a lot of impact, and the only reason my family's here in Pennsylvania is because of the Penn invitation. One of the things that has stood out so much, and Abby alluded to it a little bit — when Penn was heading to Pennsylvania to oversee it, his father's holdings at that point, he was warned that the native Americans that are here are basically savages and there's no way that he's going to be able to work with them. There's going to be a real problem with them. And his comment was well, let's see what love can do. How much good would that attitude and a comment like that work today. We need it so much, and it's so very, very significant. Another thing that stood out to me so much — the other day I read several verses from Daniel 2:20-23 that have so much in there. It's one of Daniel's prayers in the book of Daniel and it says so much, but thinking about that I'll allude to that a little bit more, but I also had to think of John Hancock, who was the legislator in Massachusetts, became its very first governor, fought for liberty, and, one of his big things, he was a signer of the Declaration of Independence. Twenty-two times while he was governor he called the state of Massachusetts to prayer. And that kind of keeps ringing for me, is what would that look like if we have a state, leaders within our states, call for prayer across the state. Pennsylvania has 13 million people. What would the reaction be if we could call our state to prayer.

But with that, let me offer up a prayer as well. Lord, thinking so much of the new Freedom Caucus here in the House in Pennsylvania, just really organized back in the fall, so we're still a bit in our infancy but already making some major impact. Lord, we pray that you would be very near and dear to each one of the members of the Freedom Caucus and continue to open our eyes, to guide us, give us words to speak, help us stay united, Lord, and everything that you have for us we ask. And, Lord, just thinking

of the words in Daniel's prayer — how you change times and seasons, you remove kings and put kings in place, you gave wisdom to the wise, you gave knowledge and understanding, you revealed deep and secret things, and, Lord, we really ask for all of that as well. And then you say your light, you dwell in light, and we know that, Lord, so we want what Daniel asked for and you provided for Daniel, and we know and trust that you will do that today, and we need it so badly. And, Lord, we pray this in the name of Jesus. Amen.

Abby Abildness: Amen. And we pray success on your prayer proclamation for all the citizens of Pennsylvania. Next Commonwealth Judge Patricia McCullough. She has God's heart for justice, as in the end of Penn's prophecy that we would do the thing that is wise and just. She carries that in her heart. She is presently now running for the Supreme Court of Pennsylvania. She's known for a November 25 order for Pennsylvania officials to halt the certification process for election results one day after our Democratic governor certified the state's results to obtain the coveted 20 electoral college votes for Biden. Judge McCullough.

Judge Patricia McCullough: Thank you, Abby. God bless you all. We know that Penn wrote the Frame of Government and the Charter of Privileges, which became the basis of not only Pennsylvania's Constitution but the United States Constitution, which is the greatest, shortest document for freedom and religious freedom in the entire world. We also know, although not widely discussed now, that there was an English jurist named Justice William Blackstone, who wrote the commentaries on the law. They were taught worldwide, they were read worldwide, because he wrote them for the people. But most importantly they were taught in the law schools in the United States of America for generations. And the basis that Blackstone had for all law, while he discussed all the various types of law in his series, he talked about what is the foundation of law, and he taught that all law is based on the natural law, and that the natural law is based on the divine law. But he went even further, and he said the divine law as revealed in the Holy Scriptures. So we know that our framers, our founders, believed and established the United States through Pennsylvania, through William Penn, through his proclamations, through his documents, to be a nation established on Judeo-Christian precepts. It's not something we made up. This was the foundation of our country. The framers knew it, George Washington said it in his Thanksgiving Proclamation that it's the duty of all nations to acknowledge the providence of Almighty God, to obey his will, to be grateful for his benefits and humbly to implore his protection and his favor. If you base your laws on Judeo-Christian precepts, the divine law of God, there is only one conclusion as to what is justice, and that's the divine law of love, as revealed in the Scriptures. And so Penn established this nation, this commonwealth, to be one where all mankind could live together in love, in unity, in peace, from all different backgrounds, and maintain the religious freedom rights that he knew to be critical and integral to all that we do.

So right now, Father, I pray, I thank you for this opportunity to be together, Lord. I ask for the portal of heaven to be open above us, to seek your face, to seek your hand in these times. We ask for mercy upon our birthplace in the ways that we have failed and

gone against you, Lord. We pray that 2 Chronicles prayer — we pray and humble ourselves before you and seek your face because you said that you would hear from heaven and heal our land, and that's what we pray for now, Lord, that you would heal our land, that you would heal it from injustice, that you would heal it from untruth, the lies that have been told, the truth that has been covered up, Lord, by the spirit of control, by unholy alliances — we break them apart now in the mighty name of Jesus Christ. We call forth those angels that will root out the spirit of covering, camouflage over truth, because we want to release the destiny of Pennsylvania into the United States, into the other countries that desire to know who we are, how we are, and why we are. So Father, we thank you that you through your angels, through the power of your Holy Spirit and the mighty name of Jesus will release those untruths now, you will bind them up, you will release them now in Jesus' name. We take that authority and stand upon it, Lord, that the hearts of the people that you desire — because you desire hearts — we declare that those hearts will be turned to you, Lord, to your truth. That's all that we need, is to see the truth of where we were established and how, Lord, and on your precepts. So we thank you for this time together. We praise you, Lord, that as every judge takes the oath to uphold the Constitution of the United States of America and of Pennsylvania, that revelation will occur, and those that have already taken the oath, that revelation will occur. We thank you that they will see the truth, they will see that you are the root of our laws, you are the foundation of our precepts, and our freedoms. And we give you all the glory and the honor. We know you desire this, Lord, so we pray it, we declare it and we receive it. And I pray in honor of those Judeo-Christian precepts, I pray in the name of the God of Abraham, Isaac and Jacob and I pray in the name of Jesus Christ. Amen.

Abby Abildness: Amen. We see the providence of God even established though the judicial system as we hear from Judge McCullough, and George Washington referred to the hand of the providence of God guiding everything. We see that back through the whole history of Pennsylvania and our nation. So our next pray-er, prophetic pray-er is Dr. Mark Kauffman. He is president of the Kingdom Congressional International Alliance and network of international apostles and prophets. He's CEO of Kingdom Broadcasting Network and a trainer highlighting the prophetic in Pennsylvania. Dr. Kauffman.

Dr. Mark Kauffman: Thank you, Abby, and thank you, Clay, for facilitating this call. This is powerful today. It's wonderful to hear from all those who are participating today and what you've shared prophetically. As we were sitting here listening, I really heard the Lord say that this the birthing, God's doing a new thing in Pennsylvania. The Lord said behold I do a new thing. Any time he uses that new language it's apostolic and prophetic in nature. I thought today that there is a watering of the seed that Abby is talking about, the seed of the nation that William Penn declared, that the seed is being watered today. I want to open in prayer. Heavenly Father, we thank you for the gathering of apostles and prophets, government leaders, your intercessors, pastors and saints of the Most High to hear and decree the word of the Lord into and over our great state. May there be an assembling of apostles and prophets coming together to bring comfort, confidence and corporeity to send your kingdom into every county of our

commonwealth. May the gathering of your Ekklesia's leaders bring security and peace, and may our coming together cause us to hear you more clearly.

In 2022 it was prophesied by a prophet Dennis Weatrick (sp?) from Canada. He said over Pennsylvania as Levi was in the loins of Abraham, likewise all 49 states are in the loins of Pennsylvania. He went on to say, we must now call forth the apostles in the state of Pennsylvania. Two weeks later Dr. William Hinn prophesied, confirming the word. He said 49 states are in the womb of Pennsylvania, and Pennsylvania will lead the other 49 states into the glory of God. So we decree, Lord, that Pennsylvania will now become a new wineskin for the other 49 states. We decree that now there will be a gathering of key apostolic, prophetic influencers in all 67 counties. We declare that today on this call, April 28, the year of our Lord 2023, that this will be the beginning of the commissioning of your Ekklesia to govern the land of Pennsylvania and to possess it for the glory of God. Almighty God, we ask you to awaken, stir up and to release your kingdom leaders into your general assembly. Let there be a gathering together of the saints in this commonwealth that they might corporately decree your righteous judgments and pass legislation collectively as your Ekklesia and government officials of Pennsylvania. We agree with the prophetic word from William Penn that this would be the seed of a nation, that an example may be set up to the nations that they may do the thing that is truly wise and just. Lord, your word declares that when the enemy comes in like a flood you raise up a standard. So raise Pennsylvania up as the standard to this nation, the standard of righteousness, holiness, justice and peace.

A prophet by the name of Alan Vincent prophesied over Pennsylvania before he transitioned to be with the Lord, and he said Pennsylvania is nearer to a move of God than any other part of the United States. He went on to say Pennsylvania is a mighty devil-crushing church emerging now. He then said that Pennsylvania, through the start of a mighty move of God spreading across the nation and touching nations, people will jump on planes to come to Pennsylvania to see what the Lord is doing. Then he declared it could be Azusa Street, 1,000 times more. So Father, we pray into that and we decree, for you have declared, your word says, that every word must be established by 2 or 3 witnesses. So we stand today as a second witness to this word from your prophet, and we agree with it, we say yes and amen. So be it. Be it unto us according to your word that this nation will have the move that will be like Azusa Street, 1,000 times more. And Father, we ask that the fire of heaven begin here in Pennsylvania. Let it spread like wildfire across this nation and even to the nations of the world. We decree Genesis 22:17 — your word declares, thy seed shall possess the gate of thine enemies. Lord, we ask you to raise up elders, mature leaders out of this great state and assign them to judge the gates, resolve disputes. We call forth your judges, your kingdom magistrates in Jesus' name to fulfill your word over this state. Anoint them to examine and to discern everything coming in and out of every city. We declare whatever is unlawful, that it be arrested and dealt with at the gates. We decree no longer will our cities go unprotected at the gates, no longer will be our state be vulnerable to the wicked ruling entities that be. May the authenticity, Lord Jesus Christ, of your kingdom penetrate every sphere, every mountain of this great state. Lord, may the coming revivals be coupled with apostolic reformation of our cities, whereby your glory will be

sustained for generations to come. It's our heart, Lord, to return this great state of Pennsylvania back to you. We decree in Jesus' name that your identity, authority and your freedom will be recovered within this great commonwealth.

We declare the rising of Samuel churches will come throughout this whole state, that they would raise up, God you would raise up the corporate man in unity. Lord, as your hand was against the Israelites' enemies all the days of Samuel, Lord God restore your five-fold ministries in every county into maturity to become Samuel churches. Lord God as one man conferred a mantle on a whole nation and brought restraint against evil, how much more can you do it again through the corporate anointing and through your church. We declare and release Samuel ministries to bring restraining orders. We now decree and declare and bring restraining influence on crime in our cities. We bring restraint against all violence. We bring all restraint against every drug dealer, against every spirit of witchcraft. We declare and bring restraint against religious spirits. We release a restraining order against abortion. We bring restraint against spirits of perversion and pornography. We bring restraint against political corruption. We bring restraint against every psychic center in this state and declare them to be inoperative. And may this great state of ours be known for its holiness, righteousness, purity; may it be known for its integrity, may it be known for its prosperity and virtue and most of all may it be known as the presence-driven people. We pray this in Jesus' matchless name. Amen and amen.

Abby Abidness: Amen. Yes, the reigning of the spiritual Ekklesia congress. Amen. Ruth Willard is the last guest — kingdom empowering leader and gatherer through the Key Fellowship Network. She was commissioned to ignite revival fire with leaders in 80 cities, and I think now they've completed 45, last count I know. Ruth Willard.

Clay Nash: We'll give her just a minute to come on. Let me speak into it. Number one I want Mark Kauffman to know I honor you, I appreciate what you released. I had the privilege of not only knowing Alan Vincent but being in meetings with them over the years, and he and his wife Eileen were just incredible people and really did a lot of mentoring with me with his writings. But as you were speaking, I heard the Lord say there's been a silent, somewhat unseen movement declaring beat the swords into plowshares there in Pennsylvania. But the Lord said there is now an active movement of beating the plowshares into swords. I heard the Lord say that that, Mark, which you've been pouring your life into in the realm of the apostolic prophetic is about to go to a whole other level. The Lord said what you've done up until now has been an awakening to where people could hear the authentic word of the Lord, but it's about to go to where it's going to become a roar of God's kingdom authority there in Pennsylvania, which is going to expedite the key that Pennsylvania is to the nation. So get ready for that.

Father, we thank you for today's call, even as we wait for Ruth, I just feel like she has something to release but we yield ourselves to you and we call her on to this call. Whatever is delaying, whatever is troubling her being able to get onto the call, we just speak to it and we bind it up.

Brother Jim Hodges, you're still with us, our senior statesman of this call, down there in the grand land of Texas.... Brother Jim, go ahead and release what's in your heart.

Jim Hodges: Thank you, Apostle Clay. I want to just reference quickly the phrase you used, Clay, about kingdom authority because what I heard today in my spirit I want to decree it quickly — is that like the Jesus movement in the 70s and what California had and Pennsylvania on those Amish, Mennonite farms and those big gatherings when many young people came to Christ in the fear of the Holy Spirit. What I realized both about the movement in the 70s and the move today, this ongoing revival, awakening, there is a similarity, and that is there is a clash of authorities and governments and kingdoms. And if I may say it what stemmed the 70s Jesus movement was basically the move of Marxism on the campuses across America, Berkeley, Kent State and wherever, but God had a counter move. So God's kingdom culture is counter to the counterculture. When I was a pastor I had young people showing up I didn't recognize. The Lord said if you'll look I'll change them, and I did and he did. I bring this up because in Pennsylvania there was a clash of cultures that was unmistakable. Those cultures were the conservative, represented by the Amish, the Mennonites, and then you go into Philly and the big cities and you've got the drug culture, and you've got the Nikki Cruzes in New York coming out of the drugs, delivered, going to Pennsylvania to minister. So these clash of cultures is a reminder for us to know historically and prophetically that God's kingdom culture always prevails over any culture or any counterculture. So we decree that today Yeshua said this — the gates of hell, the authority of hell, the authority of hell's government will not prevail against the Ekklesia that holds the keys of the kingdom that Jesus took from the enemy when he descended into hell. So we decree all of this in the name of Yeshua Hamashiach. Amen.

Abby Abildness: One of the intercessors sent me something that we actually pray on our 5am call because it is important to highlight that we call Pennsylvania back to its original vision of Penn that all PA legislators would be believers. We pray that every morning that they would be changed body, mind and spirit. That's something that Penn actually wrote in his first Frame of Government. The way that government would be successful is if all the legislators were actually believers, that everybody could dwell together peaceably but the ones in charge, those with authority, needed to be believers for this model to be successful. So God, we declare your righteous people moving into the leadership positions to possess. What the problem is those who are usurping have moved into those positions and are blocking the righteous purposes. So let your people, God, those with the Judeo-Christian foundation and belief, let them come forth in the name of Jesus.

Ruth Willard: I'm sure everything that was shared was extremely powerful, and I'm processing everything, and to be on with all of you has been incredible. What I wanted to share was what the Lord gave me this morning actually as I was dreaming. I was sleeping. He showed us engaged in this spiritual warfare, this mighty war that was all around us. We appeared to be like superheroes, and I'm not one who watches that type of thing usually but we had these powerful gifts and we were engaged. But the thing that I saw in the dream was they also had similar gifts, the demonic powers

working against us. And the war was raging all around us. We could get a breakthrough but then we would lose it. We would be knocked back further than we were when we had the breakthrough. So it was like this ongoing battle. And often they would take more territory than they had before, and I felt like when I woke up this is where we are at, and then suddenly in the dream this one superhero came to me. His garment was ripped and he was bloody and partly burned, and he looked right at me and said, I must take my seat, and he pointed to Christ on the throne. And when I looked in the dream, when I looked at the Lord he was not sitting but standing at attention. It was like in the midst of the war as well and the throne was not a seat — it was the throne, he was the throne — it's hard to explain but he was it. And so he was standing there and the minute this person took their seat, their position in Christ, the battle was still raging but victories were beginning to be won and the atmosphere was beginning to respond. And that was the end of my dream. But what I noted was also this individual that took his seat, took his position in Christ, when he did he received this new garment. And the new garment glowed as well as he took his place.

So I immediately thought of Ephesians chapter 2 and when I read about being seated in heavenly places I knew he was talking to me about a position, that we take our position in him, and as all these things rage around us if we're in him — because Jesus told us that we needed to do as he did, what the Father was doing. So how this applies to Pennsylvania — I've always thought of Pennsylvania as an apostolic state. It was a founding, it was a beginning of a nation, there are so many things that point to that. We call it the "Pa" state, the father state, the fathers and mothers rising into their position, their Ekklesia, and so as I thought about it I also remembered a current, one time when I was going to a prayer meeting and I heard the Lord's voice say are you ready to meet the Father? And this was many, many years ago, but I felt this stirring in me like ready to meet the Father? I never thought of the Trinity really that separate but there are separate things within the one. Knowing the Father is what Jesus always pointed to. He taught us to pray to the Father, he gave us a way to the Father, he revealed the Father in his intimate relationships and he did nothing unless he saw the Father do it. Jesus always glorified the Father, and the Father glorified his son, and we know Scripture tells us as well that he is a good Father, he gives good gifts to his children.

So it really shifted my thoughts for today, but I think what the Lord is saying to us as a state is to step into Christ, let's step into our position in him and believe together, corporately; there's so much power in a corporate agreement and I think that's what this call does for us as well. So I also always hold on to this one word that Dr. Chuck Pierce released here in Pennsylvania in Lancaster of all places. He said this word as he handed out a sword mantle. This mantle is for cutting loose this nation's capital because in this state, Pennsylvania, was the formation of who rules this land. If it is cut loose in this state, God himself will deliver Washington, D.C. That was given on 8/4/2017. And so it's been one of those guiding words. There's others as well. That's my portion. Sorry for any inconvenience; I don't know what caused me to get bumped off the line, but praise God.

Let me pray. So Father, I thank you as we stand together in Christ that, Lord, you will cause us to be victorious and to overcome. We know that we're seeing a new thing, a new season. Many of us are not sure how to walk this out, but, Lord, we come back to that place of trusting and stepping in to you. Let our minds be in Christ, renewed, and have the mind of Christ. Lord, I pray for all these leaders that prayed today. Many of them have been in this battle. Many of them, I have a feeling, have endured great conflict but, Lord, we just pray that those new garments, those new things would come upon them now, even now, that they would sense your presence, your overwhelming love for them, and that you would give them the wisdom and the victory in the next season. Lord, we're just believing for that together as a team in Jesus' name, Amen.

Clay Nash: All right, thank you, Ruth. Sorry that you had trouble getting on, but I'm glad we were able to get you on and receive that that you released. We come in agreement to it. I want to thank you, Abby, for bringing such a lineup of incredible people, boots on the ground there, and we bless every one of you for your sacrifices, for your obedience there in the state of Pennsylvania. Remember this call is being recorded; it will be posted on the website claynash.org and the transcription will be done this weekend so it will definitely be Monday or Tuesday before we get it up. You'll be able to get your hands on it. And I want to end this call kind of straddling a fence, but I'm going to tell you we just came out of something God spoke to me. He spoke and I think it was August 2019 about the 31 year reign of the Josiah company. And we just held the first Josiah Company so people could gather. We did it in Conway, AR, near Little Rock, and we had 33 different states represented there at the first one. And I came away from there; one of the first texts I got from Dutch was we've got to get a strategy about this. And I've really been pressing in and there are two places God has put on my heart about hosting another Josiah Company Convocation. I use that word convocation because that is a transliterated word for the word Ekklesia. Transliterated into English. So anyway I say this because I want to say to Pennsylvania y'all pray. That's good southern English. Y'all pray because Pennsylvania is one of the two places that God is already beginning to speak to me about hosting a Josiah Company gathering. I'm telling you the Josiah Company is rising in this nation and it definitely revealed itself today on this call for Pennsylvania. So God bless you all. Thank you for being on. I want to thank all of our participants; each one of these calls that we do between the people listening to it live and those that listen to the recording we're running somewhere between 5,000-7000 people that are listening to every one of the 50 state calls that we've done. We've finished well today. We bless all of you and remember those of you that have been part of the call for 5 years, we'll be back here at 2:22 on Monday. Let me tell you Pat and Jacquie are going to run with the call next week. I'm trying to finish a building I'm building; our first meeting's coming up May 12 and 13, and it's also my 70th birthday next week so I'm going to take the week off, regroup, press in, pray and get a strategy about the Josiah Company. God bless you all.
