

This word was submitted by Blake Harrell, a pastor from Mayflower. Over 100 churches came together for the Power and Love Conference with Todd White. It was heavily attended by young couples and their children, all of which received ministry and impartation. The Spirit fell mightily over three days, and no one wanted to leave. This word was delivered by one of the ministry team from Power and Love.

### **Word Over Arkansas**

Christa Smith

2/7/19

Power and Love Conference

At

Agape Church, Little Rock

*There's going to be a major outpouring here. There's been a new cry through the worshippers here in Arkansas. The Lord says He is releasing the Glory of God. And then I saw a portal over this state. I heard the Lord say that Arkansas is going to be a fire and glory state.*

*I heard the Lord say writers are coming from this state that are going to impact the Nations. Preachers that have been developed and been in the hidden place these past seasons are about to be released and are about to make a major impact. There are going to be some prophetic voices-some teaching and equipping.*

*I saw an anchor over this state. Because Arkansas has a governmental authority for the nation that this is going to be a state that anchors the turn for America.*

*We are about to step into a move of God. The Lord said don't underestimate Arkansas. Don't underestimate the wells that are going to come from this state. Don't underestimate the worship that is going to be released.*

*It's significant that women that were up there because God is raising up some women. I know that can sound self-serving, but it's not. I believe the Lord is saying there are some women that are going to be raised up as worshippers out of Arkansas, because there have been deep wells in the spirit that God has released, And I believe it's a time of re-digging but it's also a time of new digging.*

*And I heard the Lord say-Get Ready Arkansas because he has positioned you and where it has felt quiet, there has been a percolating underneath the surface. And I felt like the Lord says this weekend is merely another bubbling. I believe it is a boiling point, it's a tipping point that God is going to do this weekend because of what he wants to release. Every one of you are going to be part of it, you are going to be taking it out.*
