

- Chuck's word about gold, Wichita KS, 8/16/19

This (holding up a gold coin received as a gift from KS leaders) is a sign of the unlocking of the gold that has been held up in America, especially in our First People.

This is a sign of the total restoration of America.

There are mineral rights in the Dakota's that belong to our First People.

There's always been a snare to getting that released in America - to return us to God's right order.

We can't go back and re-do history, but there places we can go to, in the natural and the spiritual, that are greater.

We decree that the rights of wealth that have been held up, will now come into a new order in this nation.

It will start with our First People and the **power of that order will begin to work through the ages.**

Lord, You will unlock resources that have been held back for a time such as this.

We decree right now that we will hear of gold being uncovered in the Dakota's.

Uncovered in Arkansas.

Uncovered in Alaska in a new way.

Uncovered in CA - there will be an earthquake and a new vein of gold that's been hidden will be discovered.

We say this is the beginning, from the center of this nation, a **jarring loose** of new resources.

- Heartland Midwest, Wichita, 8/16/19

CHUCK called for the “heart and soul” of the nation to unite and confederate in order to shift the nation. This “Heartland Midwest” (his words) consists of the states of AR/OK/MO/ KS. It is of the utmost importance that these states assist one another and move together in God’s plan.

The next step is for KS to finish pulling down the iniquitous structures so that a canopy of glory will rest on that state... “get ready Iowa, you are going to awaken, get ready AR you are going to be uncovered, a lot of things are gonna be re-dug there. Get ready MO, no longer will the spirit of division keep you from seeing what God is longing to bring forth in our midst.”
