

Dream by Clay Nash March 2023

Recently I had a dream about America and the Body of Christ. In the dream I was standing beside and up next to 4 giant sculptures. From my vantage point I could not see them in detail, and I felt bewildered as to what was going on. I heard the voice of the spirit gently whisper, measure out 300. I answered with a question. 300 feet, or 300 hundred yards? No answer was to be heard. Suddenly I turned and looked at a space about the size of a football field and it was covered with people. I said, "Lord, what is this?" and the Spirit spoke and said, "In some people's realm of authority it is 100 companies of people." The Spirit spoke and said to walk to the other side of them. I began to make my way through them, and as I reached to where they all stood behind me the Spirit said, "Now turn and look back to the future." I turned and did not gaze upon the people but my eyes fixed upon the four sculptures. There glaring at me were the 4. What I could not see in detail while positioned up close, I could now see the full scale and enormous size of 4 numbers. I thought of the saying, I could not see the forest for the trees. 2023 stood there tall in stature and blood red. I asked the Lord, "What are you showing me?" The Spirit spoke and said, "Just as there was a man sent from God named John, there is a Nation birthed and sent by me, and It is America." The Spirit spoke again and said, "For America to turn and move back to it's future it must allow John 20:23 to become it's turning point." The Spirit rehearsed then into my spiritual ears, "most have forgiven, and many are working to forgive. However most never speak grace, grace, grace to these mountains and have closure to move forward, and back to their future is limited." Then into the dream stepped the Angel that guards the Justice Gate and spoke, "Closure must come to this nation, a closure that will facilitate the mountains of injustice, un-forgiveness & roots of bitterness becoming cast into the sea." The Justice Gate Angel then instructed me to remind the nation that as we have built our relationship upon Jesus, our foundation stone mentioned in 1 Corinthians 3 we must embrace the foundation of apostles and prophets as instructed in Ephesians 2:20. Then the Justice Gate Angel said that as the Ekklesia places the capstone in place as instructed in Zechariah 4:7 thus bringing the closure needed to move on into liberty and the empowerment of grace.

Until we achieve closure and speak "grace, grace, grace" to our mountains of injustice we are unable to see things as they really are. Therefore, we are limited to seeing things as we really are.
