

## Josiah Company declaration by Clay Nash

Lord, in the turning of our nation, I declare the reign of the Josiah Company is building momentum. We declare that injustice is being uncovered and will be exposed to the point of crumbling before our eyes. We declare that the Angel Armies have waited for the Josiah Company to be activated and to activate the Angel Army to greatest level of righteous battle ever knows in history. We declare as the Ekklesia continues to come into battle formation as the legislative branch of God's church there will be exposure of corruption and injustice. We declare the The Josiah Company is putting away childish things and thinking and embracing the maturity that only comes through surrender and humility. We declare that as The Josiah Company decrees "Hear now the word of the Lord" there will be a shaking as bones come fitly joined together. We declare that 2024 will set in motion the roar of God's authority throughout this covenant land. We declare that the many standing in the valley of decision will march forth settled in their hearts that God's yes is their yes and God's no is their no. We declare that this exceedingly mighty Army will partner on New Levels with the Angel Armies of Heaven thus putting disorder and confusion on the sideline under penalty. We declare that the forward formation of the Josiah Company will result in Reformation and the remaining fruit will be Transformation. We declare this next 12 months the stoney hearts will be replaced by hearts turned to God and will become fleshy hearts of surrender. We declare God will fill the mouths of the surrendered with words of life, words of creation, words of order, words of healing, words that will establish order, and our words as the Josiah Company will become a sound heard around the world. We declare a new level of faith will come in 2024 that will establish God's authority as the roar that brings conviction and strikes fear into the hearts of the rebellious causing the indifference they hold against God and His righteous people to be dissolved and released through repentance. We declare to the Josiah Company they will prophesy to the dry bones of their region and territory "Hear now the word of the Lord."
