Prophetic over Indiana
By Jacquie Tyre

Looking over the state of Indiana this morning, I saw lines criss-crossing across the state in virtually every direction. The lines were rather random and jagged in nature and intersected in various places across the state. Since I do not know the layout of the state well, I could not tell where these places of intersection were but know some of these places are the origination points of the outlying fracture lines.

Holy Spirit began to speak to me about these lines of fracturing:

Some of the “origination points” - the source points of the fracturing are places of weighty demonic activity oppressing the people and defiling the land.

Others are places of the weightiness of the Altar of the Lord pressing down to fracture the systems and structures that hold hidden works of darkness in place; the weightiness of My Presence is pushing out the hidden works of darkness so that all may be seen.

These junction points are places of significant altars that are ruling over these various points across the state.

The Lord said, “It is mandatory to rightly discern the fracturing. Ask the question: Is this fracturing the result of the weight of the glory of the Lord or the weight of the demonic oppression upon the land?”

Proper discernment will unlock effective strategies to address what is ruling and what the fracturing is revealing.

Above all else pour yourselves into tending to the Altar of the Lord to insure the fires on the altar never go out.

Know and be assured of this: not all fracturing is bad, nor is all of it good. But know that I am well able to take and turn it all for My good as you set your faces like flint to seek My face and to do as I instruct to tend to My altar and to identify, dismantle and strip the demonic altars of their power.

Purify and strengthen the Altar of the Lord from place to place to place across Indiana and watch to see what I shall do to liberate and heal this land called Indiana.

The battle is fierce and the stakes are high, for what is contained within Indiana for My purposes is great and My eyes are set to see a people rise up in the unity of My Spirit to press beyond the obstacles, move beyond the fracturing, and step into a place of seeing My Kingdom come in manifested glory in this land called Indiana.

Prophetic over Indiana
By Pat McManus

I am removing the limits of man on the land. I'm igniting a fire that will burn up the structures and limitations and I'm releasing the fire that will empower my Body Ekklesia for advancement. Restoration!!!
