Dream by Clay Nash

On the morning of Sept. 20th while in Willis, TX I dreamed of Dutch Sheet's assignment to vav Washington DC. In the dream, myself and a team were located at Mount Rushmore to vav it at the exact time Dutch was to vav DC. The Justice Gate Angel instructed that Dutch's assignment was to move the US forward from a delayed destiny into an unstoppable destiny. The Justice Gate Angel said that this was only possible by being connected to the past strength and life assignments of the four President's featured on Mount Rushmore. The Justice Gate Angel said the two-fold vaving will expedite the reconstituting of the Nation and increased acceleration of awakening. Aso, that this two-fold vaving would act as a double-portion release to the people. The Justice Gate Angel said the strength of the four Presidents would be the sure re-establishing of the Republic Democracy intended from the beginning, the expansion of the authentic God-fearing conservative nature of the Nation, the once again unity and oneness of a very divided people and the return of Godly focus upon the people of this Nation and not the global view that has weakened the US. The Justice Gate Angel said that these four strengths and life assignments were the anchors of the soul of the Nation. End of Dream.
