

Dream by Clay Nash

February 4, 2021

I dreamed the morning of Feb 4 that Dutch Sheets sent out a notice about the election that we were to gather at the Gerald R. Ford Aircraft Carrier. Dutch reminded us it was located at the third place it was positioned, the Ohio and Mississippi Rivers junction. He informed us that we were to be there on 02/22/2021 at 9:11 sharp. He asked us to not mention this to anyone but our spouses. He requested that we fast in some measure and pray up until that day. He instructed us we were to read and meditate daily on Amos 9:11

“In that day I will raise up the fallen booth of David,

And wall up its breaches;

I will also raise up its ruins

And rebuild it as in the days of old;

When February 22 arrived we are assembled on the southern bank of the Ohio River next to the eastern bank of the Mississippi. The Gerald R. Ford was massive. After Dutch Sheets finished leading us in declarations of the nation we were astonished as George Washington stepped forth on the port side of the carrier. Appearing with George Washington were men and women of every era of our nation's history. Every ethnicity was assembled as well. As our total attention was being given to Washington and those gathered with him, from the starboard side of the carrier there came a fleet of ships with sails stretched and Ekklesia 2021 on each sail. There were 70 of these ships. Each ship had painted on it's port side, (the side we could see) Appeal to Heaven. This stretched from front to rear as the letters were huge. Once the ships were revealed and positioned Washington stepped forth and addressed us. He spoke personally to Dutch, but his words were for us all. He thanked us for the faithful and steadfast stand we had taken through a very difficult season. He said the Ekklesia had matured to a place it was now time to increase the Ekklesia's Fleet of Ships. He informed us the Appeals were working but it was now time to add to and mature the Ekklesia. He said as these Ekklesia 2021 are to position across the nation they would become training centers utilized to disciple more to function in the Legislative Assemblies, causing Heaven to touch earth. He said the battle for the healing of the land would be accomplished through this new measure. At this time Robert Hunt stepped forth to address us. He stated that just as he has made covenant with God at Cape Henry it was now time to establish covenant landmarks across the United States. He informed us these landmarks would become points of contact of faith for the body of Christ in our nation. He said each landmark would be connected to one of 7 Covenant Cities in the nation. He said these seven cities would become sanctuary cities of and for the righteous in the future. George Washington then said he had chosen this day to dedicate the increased fleet of Ekklesia Ships because it was his birthday. He then said, “You must know that even as I once survived smallpox, this nation must and will survive this great disease that is seeking to destroy it at it's very core.” He commissioned the ships and then commissioned Dutch Sheets to go Heal the Land.
