

Triumphant Prayer Call for Righteousness: Tuesday Night Prayer Call

Topic: 4 Firstfruit States (Led by Tim Carscadden)

Date: 8/30/22

****For errors and corrections, email HealOurLand@claynash.org****

Tim Carscadden: [00:00:27] Well, welcome, everybody, to the Tuesday night, 9:00 Eastern Time, Triumphant Prayer Call. Clay Nash Ministries leads. And I'm Pastor Tim Carscadden from Shreveport, Louisiana. Pastor of Christian Center Shreveport there. I'm filling in for Clay tonight. He had a death in his family. So we want to pray peace over Clay and his family as they go through this process. And we know Clay loves his family so much. We know it's a precious time in his life as he pours into his family. So we lift him up in prayer tonight. Once again, we thank each and every one of you that have joined us on Tuesday nights and some each day at the 222 call. I think it's a special group of people. It's been an honor to pray with you guys for the last several years. And thank you, Clay, for allowing me and us tonight, the host while you're out.. And we have some topics to cover tonight and very important in the hours we come into the midterm elections. You know, Clay had the dream of the 44 steps to the election in November, the midterms that are coming up, that are critical for our nation and where we're turning. I say to all of us who pray, make sure that you stay on the wall, hear heaven. Don't get caught up in the media. We keep hearing the red wave. It's going to be this and that. I'm a lobbyist. I lobby in D.C. and I promise you, it's not what the media is saying. This thing could go either way, and we must contend for this in such a special way. Now, September is a big month as we enter in because there are four primaries that are going to occur this month. One is in Delaware, Massachusetts--I think was Massachusetts, third is New Hampshire and fourth is Rhode Island. Let me give you the landscape since this is something we work in. Delaware has one congressional seat up for grabs. Massachusetts has nine congressional seats. New Hampshire has a Senate seat and two congressional seats. And Rhode Island has two congressional seats. Will also pray after we cover the states, will also cover the Title Nine issue if we have time. Let me give you a landscape on these issues and then we'll let the team start praying, especially in Massachusetts. This is something I really feel we should be bringing into a nine congressional seats. And in Massachusetts is a complete Democratic run state. There are

absolutely no Republicans nor independents in Congress, either in the Senate or the House, and I believe it being a first fruit state. We've got to ask God to turn the hearts of the voters and the people of Massachusetts. That's one issue we want to focus on. Now, on the other issues. Delaware is probably pretty much a done thing. But in Rhode Island, which also has no Republicans whatsoever, there is a congressional district seat that could flip. Many polls are showing that it could happen right now. It's pretty much a toss up. But we could actually see Rhode Island rise up in this election and begin to have a voice. And then the last one is in New Hampshire. I think we need to really pray about New Hampshire right now, I think it's one of the most vulnerable states for the Democrats. And they know that the two congressional seats there are considered toss ups. So it is possible that we could flip in New Hampshire and see some conservative candidates take position there. Also, in the Senate seat there, there is a general that's running there that's been endorsed by the Republicans, and he has a chance to actually unseat Senator Maggie Hassan, who's been in office. She's a senator that's been there a while. And so she is considered and this is considered the most vulnerable seat for the Democrats in the Senate. We'd love to see this one shift here, and then God would begin to bring a conservative voice out of New Hampshire. So, we're going to focus on those states to start with, and then we'll shift as we pray for other issues tonight. So, we're glad to have Pat McManus with us from the great state of Illinois, we're believing Illinois is going to be heard from this year as well. So Pat, if you'll lead us off and open us in prayer, whatever the Holy Spirit has put on your heart tonight.

Pat McManus: [00:05:32] Thank you, Timothy for the opportunity to pray with everyone. So, Father, we thank you as we stand as aligned identity with you and as Father, we position our hearts into the perspective of your way. That Father we'll see the fulfillment of your hand come upon our land. And so, Father, we thank you Tonight, as you release your revelation through our decrees that father will see the ultimate breakthrough begin to manifest in the States, as Timothy declared. So, Father, we thank you for the opportunities that we can to link our shields together and to stand as one to see the Kingdom of God advancing. And as you sent out the information earlier, Timothy, concerning and as I was looking for the state motto stuff and for Rhode Island, it says the word hope is there state motto. we have an anchor of the soul. So, Father, we declare that you would reestablish a clear expression of restoring the foundation of what Rhode Island was built for as hope is restored. We thank you, Father, that you are neutralizing the effects of man and you're restoring the very foundation of that state to come into its clear, expressed identity, to see the fulfillment of your word come to pass upon them. We

thank you, Father, that you are restoring that which needs to be truly emphasized as the Biblical hope restored into that structure, into that system. So we thank you, Father, that you are resetting according to the expression of your heart, that you're restoring hope and you restoring Father the very foundation of what that state was built for as it enters into the truth of your words. And Father, we lift up Massachusetts to you. Father, that it would recognize that it says Live free or die. Father, we declare life for New Hampshire. We declare life into every congressional district. We declare life into every aspect of that state. Then it would come into a clear sound of revolution in your word, and that there would be a restored expression of your heart in the very foundation of that state. So we say this day, let life prevail in every form in New Hampshire, in every place there, where we will see a turning and a realigning and a readjusting, according to their motto: Live or die. Father, we declare, let life prevail in New Hampshire and Father, even in Delaware, we know that it's a place that truly needs to be reordered and repositioned in your word. and father, Their motto is Liberty and independence. We declare this day that the dependance upon God rules and reigns in Delaware. Father, we ask for a shaking in that place that would cause a shaking in every aspect of that state and all the way to the very core and the values of what that state represents. Father, we declare, let liberty, Your liberty, not the not the socialist liberty that functions in that state, but let the liberty of God with a dependance upon your word, be truly evident in that state as you begin to reform according to the purpose of your word. So, Father, shake every corner of that state according to the purpose of your word, and we will see the fulfillment of your hand come to pass in our land. And we thank you, Father, for in Jesus name, Amen and Amen.

Tim Carscadden: [00:09:11] Well, thank you, Pat. And I think Pat hit something really important there. We're going to the roots of these states and the way they were established. Let's not forget that these four states, New Hampshire, Massachusetts, Rhode Island, Delaware were all part of the original 13 colonies. And so for, the republic in which we are. We're not a democracy. Don't ever forget that. As for the republic that we are, these four states especially have first fruit foundations for us to have our independence and our freedom. And for much of the Constitution, all these were the critical states. So we're calling to those foundations, like Pat said there, of who they are and that they would rise up. One thing you're noticing in the left right now, I know the Biden administration now there's a new mantra and a new statement by them is that the Republicans and our movement and the conservative movement, especially MAGA and all these are things that we are a threat to democracy. And that is a-- you can see this all the way across the line. And so these four states were the ones who decreed what we should be a

republic and how we should live and how we should walk. And now they are twisting the call and we ask that there would be a reversal of that twisting of words from these four states, especially. that they would go back to their roots and reestablish this nation as a republic that we were called to. All right. Anne Tate, I from the great state of Texas, why don't you jump in here and share your heart and whatever you want to speak into.

Anne Tate: [00:10:46] Thanks, Tim. I've been, because we're preparing for the head of the year, I've been going over the Gamil(sp?) Words. And one of the words is developing a new backbone. From Ezekiel 36 and 38. And there's a number of words that start with the G in the Hebrew that are for the skull, the spine or the skeleton, the back. And I felt like the Lord was saying that in these states that the ones who are voting with the Lord, who are hearing the Lord and voting with the Lord, that they have to develop a backbone and begin to stand up and speak. And if they'll stand up and speak in each one of the states and speak to their state and call for the wind to come and for the bones to be activated, for the dry bones to begin to be raised up. This is the season this year when we want the dry bones to begin to take on life. There's even a word that begins with the a g in the Hebrew alphabet that is Harpenden. Our Sun You as a Lord, we ask you to activate those words in the fourth day. I ask you more to call them, to stand up and to be to lose their voice. And I think in states where they have such a lopsided constituency that people are afraid to speak what their what they are hearing. And what I hear God saying and I want to say to them, it does not matter who gets elected. What matters is that you hear God and now have the vote involved with the Kingdom of God and not the man's assignment. As a Lord, I ask you for that in the name of Jesus. And I also. I also know that this is a year where we're going to be rebuilding Gods altars. As I lose your voice, worship and praise the Lord and we praise the Lord for these days. And what they did to begin with. And we speak to them and say, Go back to your root, recover your first love for the Republic and all that has been formed. And Lord, I ask you to give them dreams that show the contrast about where they've been and where they are now, how they were supposed to be designed, and what came up and what what what actually has happened at this point. And, Lord, we ask you to recover our original purpose in these four states so that they can execute justice, that they can stand righteously with the decisions that they make in agreement with you. For Kingdom in Lord, I thank you for Your Kingdom to come and your will to be done in this nation. As we begin to move into September and head of the year and these elections, Lord, remind us that we're responsible to you. It's an audit from you, how we vote. And Lord, I ask you to cause them to begin to meditate for their strategies to speak. Opening your mouth randomly is not the same

thing if meditating enhancing the Lord what he wants to speak in to something. And so I encourage and exhort those from these four states who are Christian, who are hearing God, who are moving by His spirit to vote their conscience and vote what they hear God say in the name of Jesus.

Tim Carscadden: [00:14:55] Wow. Thank you. And and that's very powerful. I want to add to that. You know, Bob Jones always used to teach us. He said, you know, when you vote, you vote judgment one way or the other, God measure those votes. But those four states, especially, she was calling to their roots. And while she was saying that, I heard Isaiah 51, verse one, and I know this was for Israel, but it reminds me of this passage when he said, Listen to me, you pursue righteousness who seek the Lord. He says, Look to the rock from which you were hewn and the quarry from which you were dug. And I thought about Massachusetts, especially Plymouth Rock. That's where they came from. That's the foundation. The whole statement that came from that place, the covenants that were made there. And these states, in a sense, because of the way they have turned, have walked away from the places that they were hewn they were quarried from. So when I went there and was saying that I think we need to call to that if you live in those states, if you're on this call tonight, you make sure you call to that quarry, to that rock from which you came from. And when it goes on to say, look to Abraham, your father, and to Sarah, who gave you birth. In other words, look to the fathers, those martyrs, those people who paid a price in those states, especially since they're part of the original colonies. We pray God right now that what they were drawn from, they return to in the name of Jesus. We decree that tonight. Thank you. And that was very good. Okay. David Hurdle from the great state of Mississippi, our friends here next door to us. What are you hearing? Carrying. Thank you, sir. Yes, sir. Just mainly here to agree with those that know more about this than I do. Hadn't had a chance to really track with these these people running for office here in the States. But I know we can pray according to how Jesus told us to pray and we can have an impact. So just embrace the identity of first Peter to nine your chosen generation, a royal priest to the holy nation, his own special people that we may proclaim the praises of him who called us out of darkness into his Margaret's Light. And so we embrace the mantle of authority he's given us, and we embrace the keys he's given us. And we declare tonight that the kingdom of heaven come and the will of God be done on Earth. In the September primary elections of Delaware, that one congressional seat, Massachusetts, the nine congressional seats in New Hampshire, the one Senate and two congressional seats in Rhode Island, the two congressional seats. We declare that all voters come into alignment and agreement to support and vote for the

candidate. That the Lord's as the Lord's endorsement has his hand on him, has his favor on him, Lord in Jesus name. And I thank you, Lord, for who President the former President Trump has endorsed. But we are alone. We are looking for even beyond that your hand on the man and Lord. We thank you that your hand has grown seemingly on more of a conservative thinking and constitutional embracing Republican Party. And so we bless them, Lord, as they seek to win in these blue states. And we thank you, Lord, for favor on them and Lord that there will be a wake up of those that have been blinded by the leadership they've had in the past that have caused them to go down a road that is not in agreement with the policies and the principles of the Kingdom of Heaven. Father, give us a deliverance. We're asking in Jesus name across the States, give us a deliverance into an alignment. More in agreement with what you have in mind and with what, as our brother was saying, what it was in the roots of these states and was going to produce a fruit of destiny that honored you, Father, in Jesus name. We're asking that we propose that the changes of the federal regulations that that would expand the scope of Title nine include sexual orientation and gender identity and other aberrations. Lord, of what you said was a man and a woman and would take that and distorted Lord and would bring consequences to our schools and our children. And and it would limit religious liberty and even of freedom of speech and all things like that. We do intend and to submit comments and convictions to outline these issues and what these issues would do. And the expansion this expansion would cause them to do to our social fabric. We push back on this overreach of the government and but Lord, tonight, our comments and our convictions are made to heaven. And we appeal to heaven tonight. And we declare in Jesus name that there's a. Each will have its hand slapped back off of our children, our schools. And again, we would be able to honor righteousness and truth and that this evil expansion will lose traction and its motion will even be reversed. And it's and it will there will be a removal of any ability it has to enforce any of this wickedness that it seeks to enforce Father in Jesus name. We are looking to you. We know that we have a court in heaven that is the ultra Supreme Court. We know that you said it as judge, and we appeal to the judge of heaven, earth and the universe and the United States of America who happens to be our Father, God. And we thank you, Lord, that you are delivering America from these kinds of things. You're delivering this, people. It is all meant to be saved and come to the knowledge of the truth. And therefore we declare this nation will be saved in Jesus name and we'll give you the glory. Amen. Thank you, David. And we do want to pivot now and deal with the issue that he just broke. I spoke to and I'll ask you and you'll come on right after this. I do want to say this one more thing about the two other states. Two states I felt I had a word for before we came on tonight. So if you're from either Massachusetts and New Hampshire, please pray. And that these

words I heard this from Massachusetts, your time of awakening has come. The Lord is calling to the first fruits of your purpose and call it to manifest in the season ahead. Heard this Hidden treasures within your borders will be found as the remnants cry is going to be heard. New strength is being sent to the intercessors of the ecclesia who have stayed on the wall. The Lord says he will have the last word. Over Massachusetts, we decree that now for New Hampshire. I heard the Lord said he has not forgotten the beauty of your purpose. And there is a major turn in coming to this to the nation. And it will be seen from New Hampshire. But your small seed, the Lord said, will bring a great movement that will spread beyond your borders. And then I saw rivers flow from you and bring the life to other states. So we decree those two over those states right there, and we want to pivot. I think David started the course on this, especially on the transgender, the whole movement to the president. Biden is trying to push on Title nine and forcing schools to teach transgenderism and then also making parents whose kids are in those schools is he heard that she is giving 15 call on this. Basically, if the parents do not reiterate what they're being taught at school, they can be called the child protection agencies can be call on them and the children can be removed from all this. Now, we did have a breakthrough today on some of these issues. Biden was trying to force hospitals and doctors to perform transgender surgeries as one of his one of his mandates that he wants. The Fifth Circuit Court of Appeals Court of the Fifth Circuit in New Orleans today blocked Biden's administration from forcing doctors and hospitals to offer these transgender surgeries. This was a lawsuit that was brought by the Roman Catholic Church in 1900 health care workers under a Catholic organization. And the Roman Catholic Church holds that biological sex is immutable. I think that they're making statements. So, you know, well, all our issues of the Catholic Church, they want to honor what they're doing right now and speaking for life. And this is a huge case that just came down today. And we want to pray over that and make sure that there is no overruling of this case. And then there's another case that we're praying into right now as well out of New York, a university called Yeshiva University, a Jewish university that, you know, holds fast to the Torah, as they say. And there is an organization, a group within the school that records as as one court cases that requires the university to recognize LGBTQ student group. But the school has appealed to the Supreme Court and asked that they not do this, that they not make them do this, that they said that they believe that their school must hold to the principles of the Torah. They are not against allowing LGBTQ students to come in, but the Torah, they said, must be supreme and must rule. So we want to pray for this case. It's coming from the Supreme Court by Yeshiva Yeshiva University out of New York. So and I know you want to pop back in here. What are you hearing on this issue?

Anne Tate: [00:25:08] Tim, what I want to say on this is. I want I want to speak to the watchmen and say, please look at the behavior and the cycle and the things you're seeing and connect it to what kind of altar they are serving. And because one of the words for next year also is dethroning veiled dwelling places. And when he is open to be able to say and do the things and confuse sexual identity and gender issues, all of those things, and he's running rampant through all of this that we have to connect what they're doing with the altar that is being served. And those are the altars that we have to address and overturn this year. But we cannot do it if we don't have clarity of vision. So that family, so that children, so that it is a society, are a nation where salvation can move through all of the United States of America. And so Lord, we ask you tonight, we are looking at these things and the things they're planning to do with our children and that they want to do. Lord, they are trying to implement, found a system in the United States that we never started out to be. They are coming to the fullness of their time. Where they want to put everything in place. Now, Lord, our only defense is you. The revelation you give us, the things you cause us to see, the dreams that come, the understanding that comes. Lord, it takes your spirit. So Lord, I speak into this call tonight, and I call each and every one of us on this call to stand in a new way in this season so that we are receiving all the revelation needful to be able to resist, to reidentify, to stand in a righteous place so that the Lord is able to move in this nation in the name of Jesus.

Tim Carscadden: [00:27:30] Yes. Amen. Thank you, Anne. And that that's the push that we need right now. I think the families which you touched on is so important for us. I know, Pat, you had something to add to the family issue.

Pat McManus: [00:27:43] Father...thank you, Timothy. So, Father, we just thank you that you are empowering the fathers and the mothers. That they are standing as one to declare that their children are protected, their children will serve, and their children will not be harmed in any way by an ungodly structure. We ask for a boldness and the backbone to rise up in the fathers. That they'll take their true and strong position of authority and say, Not on my watch. Will you hurt my children? So, Father, we say, Let there be a boldness of a lion roar in the hearts of the families, that not just the fathers, but the mothers and even the children will begin to roar forward and say "No more." And the fathers and mothers will echo the sound of a "enough, enough, enough!" and no more will you harm my children. So Father, release the sound of the roar coming from the families. For our nation was founded on family, faith and freedom. So, Father, let the family structure be restored to the fullness of your eternal design. And, Father, let there be the sound

of the fullness of your heart begin to roar from the families across our nation. And they will preserve and prevail accordingly against this ungodly structure and system from man. So we thank you, Father, that you're releasing the roar in the family to move forward in the power of your name. And we'll see the restoration of family structure according to the foundational covenant of what you have declared upon our land. And we thank you, Father for it, in Jesus name. Amen.

Tim Carscadden: [00:29:35] Amen to That. and that's the foundation of the the word of God about family, husband and wife and family. Everything that God does is based on that. And, you know, when we talked awhile ago about the Torah, the first five books of the Bible, which the Jewish people started with, and I want to remind you, I was reading the article about this Yeshiva University in New York and their appeal to the Supreme Court. This is what they said. The president said. It says, "we only ask for the government to allow us the freedom to apply the Torah in accordance with our values. We see the Catholics doing it concerning transgenderism. Now we're saying the Jews do it concerning what they believe the Torah says and the values that they believe in. And these are the Judeo-Christian values. The Roman Catholics made a statement that our sex is immutable. What God created to be is who we are. And now the Jewish people are saying the same thing. May be evangelical spirit filled church rise up and actually have those same statements coming out of our mouth. And Lord, we say we repent on behalf of any of our movement that is not made these open decrees. and we ask that Lord, we be heard doing that as well and our voices to be heard. And we say that, God, you created man and woman, male and female. You create the family culture and the way that you wanted it. And Father, None of this infringement on families, Lord. And to take away the rights of parents. Lord, we ask that there be a crop failure of such a movement, a decree, a executive order that this administration may be trying to do to make these things happen. We say, let your word prevail and we ask for justice in the Earth. In Deuteronomy 16:20 when God was telling Israel when they were going to land, he told them, he says, justice and only justice. You shall pursue that you may live and possess the land which the Lord your God is giving you. God has given us this nation. So therefore we are responsible to pursue justice and only justice in this land. And Lord, this is justice. You gave us this land and that Lord, we'd be a voice for the Kingdom of God in all of the Earth. We decree that tonight in the name of Jesus. One other issue, and I don't think. Well, I'm not going to pray into it that much. But please, keep California on your radar on an issue on abortion. We got news tonight that the Senate, that the California Senate just passed a bill which will allow nurses to perform abortions with no doctor present. Obviously, this

puts more workers into the abortion field, but they don't have enough doctors. They're going to start allowing nurses. This is a-- you know, obviously it's horrible. Abortion, first of all. But two, now you're going to have nurses in there. And should their actually be, which is very common in an abortion process, a medical emergency, you're not going to even have doctors on site sometimes to do these abortions. So everybody remember California, where the crop failure to the house over, they would not agree with that Senate bill there. They Would allow these nurses there. And you got to understand this. If you're a nurse in California, this could be one of those things that they'll push you to require you to do it. Not only can you do it, they're going to push you to do it. And again, this would cost many Christian nurses their jobs if they were to stand up. So that's a big issue on the abortion issue out in California. Well, I want to thank everybody. Unless, any of my hosts have anything else they want to say. I want to thank everybody for joining us tonight. Again, we're praying for Clay and for his family Right now and the death of a family member as he speaks into his family. want to pray for him. Pray for these elections this month, especially these primaries. Also want to remind you that mail in ballots are all going out now for the midterms. They're starting with the seniors first. These are the most vulnerable ballots to be manipulated. We want to make sure that there's integrity in all the states, all 50 states as these mail in ballots go out and that we won't have any issues arise. Those votes have been counted improperly or not being turned in all the other issues that can go on with that as well. So we want to pray for that as we go forward into these next few months in the days ahead. Let me pray for us to close this out and pray for you. The prayer warriors that's joined this prayer movement. We honor you each and every day. Those of you join, even those in the nations we're getting, as Clay said last week, I think over 14 nations are now joining our prayer call with us. And so we're thankful for that. So, Father, I thank you. And we seal these prayers tonight. We again, lift up these states. We thank you, Father, for what you're going to do in these 4 firstfruit states, as we'll call them. Lord, we thank you For Delaware, for Massachusetts, for New Hampshire and for Rhode Island. Lord, again, we call to their first fruit purpose, to the quarry They were hewn from, the purpose that they were put here for. And we say, God, let the intercessors, the remnant within those states be encouraged tonight and Father, new strength, a new revelation would come to them. Lord, that your spirit would be upon them. In the days ahead. We thank you for that. And Lord, for this issue with the transgender issue that is trying to be spread by this administration. We Lord ask that Lord every court case--cause these are going to be taken to the courts. Every court case would rule in favor of the Word of God like it was in New Orleans today, in the Fifth Circuit. That Lord, that we will not be forced to change the identity of a human being the way you created them to be. I pray for one court case after the

other. Victory after victory after victory until this thing is shut down completely and ruled the way it is unconstitutional in America. Father, that's our hearts cry. And we ask for the remnant. We ask for the bride to arise and join with you in Union Lord that what you created us to be and how you create us to be will be who we are as Americans. Lord, I pray that right now. And I pray now, and I pray, now peace, Father, upon each person here that is on this call tonight. I pray for their homes and I pray that they be strengthened. Now, Lord, as they stayed on the wall, that Father new energy would come into them, new revelation would come into them. I declare that now in the name of Jesus. Now I had a word. I'm going to release it. As the Lord spoke to me about the next four months. It was over a month ago he spoke to me, but he said, these are gonna be some of the most dark times we're going to see, but we're gonna also see some of the greatest outpourings of the Spirit of God in the next four months, all the way through November. And he spoke to me and he said, as the seven spirits of God, the spirit of wisdom and understanding will be highlighted and will begin to be activated at a higher level within the body and the remnant of the Lord. So, I wanted to speak that. Now you already have that in the words written on your heart, but this is an activation. Two of the seven spirits that;s listed in Isaiah 11, but I just speak that over every prayer warrior tonight, the spirit of wisdom and understanding that those two partners that they would work together with have wisdom on what to do in understanding and what you're doing in this hour, understanding of the Word of God. And I release that the night in the name of yeshua. Amen and Amen. and Lord, we pray for Clay and for his family right now. Thank you for Clay Nash and his heart to lead this nation in prayer. And I pray for peace upon him and his family tonight. And may his words to his family be strong and mighty in the name of Jesus. As we close, remind you tomorrow again at 222 Eastern Time and back on the call. Also, Clay reminded us that you can go to his website, ClayNash.org and he has some new hats, which I like. the ecclesia cap. In God we trust. And he has some apparel as well. Encourage you to go do that and let's be one voice. And hey, let's put on the same attire so that everybody will know what we believe. So, you can go to ClayNash.org/store and you can order them there as well. God bless you. We'll see you tomorrow. Thank you to the hosts as well. We'll see you tomorrow at 222. Bye bye.
