

## Words for Indiana Comprehensive

**Indiana State Declaration Motto:** The crossroads of America. Go where your heart tells you to go as you're totally surrendered to God.

**Chuck:** Over Israel, Syria, Lebanon, Iran, Dubai. We decree that there are certain centers where God is dropping revelation to build His church throughout this nation. See the keys over your city, Houston, Chicago, San Francisco, San Diego, Las Vegas, Los Angeles, Indianapolis, down the East coast, Charlotte, Raleigh-Durham, Miami, Key West. I had a dream about Key West last night.

Father, Anoint our ears to hear. You are saying that the time is now at a new place. You are penetrating through one season and into the next season. You are bringing Your word down and we turn our ears toward you. Turn and pray over someone's ears that they will have the ear to hear for the next season of training.

Chuck: The Lord says, "Bring through prayer that new mantle for this region". For this new mantle must fall upon the land as you expand. You are moving into a season of expansion. Barbara, there is a mantle falling upon you that is simple faith. Communion is important and as you drink your new wine, I see three state areas, Indiana, Michigan and Ohio.

The Lord says, this demon force that is reasoning away my next move in this area is hanging onto the last seasons charismatic flow - I say that demon must go in Jesus name. William open the backdoors - I say you must dry up and blow away. I will send a wind in to blow the very dust of this demonic force out of this territory. I will stir the wind up over the next three months - that which you are still wearing from the last loss in this region - take it off because a new mantle is coming in. Father, you are bringing a divine shift into this atmosphere so that we see and wear what we have for our future. Even legalistic structures that have affected the healing in this area - Barbara, those old legal structures will dry up and blow away you will network buildings in days ahead. Glenn, you will be restoring new structures so that you will be able to move in ways you have not moved in the past.

Chuck - Journey highway from Lansing and go to Detroit, go to the largest cities of Ohio cut through it+ Indiana into the darkest places that are holding this nation. You will repent for resisting my covenant with my blood. Begin in government, I will take you through repentance, and realign this government with my government

You will come from IN into Chicago, into Wisconsin, . You will circle this region. I am ready to circle and deliver this region from the seal that had my blood working stopped.

I am ready to send the wind a refreshing wind that will turn to a summer breeze.

**Chuck Pierce: The Lord says I'm rolling back time so I can intervene again. I'm rolling back time so I can intervene again. And I say to you even things that were on the forefront that were weapons that would be assigned against you I say now I will lose, cause papers to be disheveled and cause assignments to be confused by the enemy. I say to you I am intervening over My people this morning. I am coming at the crossroads and you will know the path to take. I will reorder the days of My people from this day forward.**

**Lord we pray for the crossroads states of America. I say go to the crossroads and establish wisdom. Lord we pray for Indiana we pray for Ohio, we pray for Tennessee. We pray for Kentucky, we pray for Michigan this morning.**

**Lisa Lyons: I just felt like *the Lord said grab some flags and decree into those states.* So I have Arkansas and I have Indiana so Father I speak to these two states and I say Lord that there is a new measure of limitless coming into Arkansas and Indiana. Father I thank You that You are cutting new channels from this place Father for sound to go forth into the States of this Nation and the countries of the world. Father I thank You that You are cutting new channels from this place Lord through which Your glory and Your power can flow. Father we say that Your glory and Your power are flowing to Arkansas and Indiana today.**
